

These moments are meant to last.

Brisk mornings in the park. Playdates with the little ones. These are the precious moments that are meant to be enjoyed with a full heart. And with a heart screening, you'll be able to rest a little easier knowing there will be more of them to come.

We invite you to join us for a FREE heart screening. It's the best way to determine your risks for having a heart attack.

**Set up your FREE screening appointment today by calling (866) 636-4445.
Ask for a Feb. 15 appointment and mention code SMCB001.**

Screenings will be held at Town of Apple Valley Parks and Recreation Department located at 14955 Dale Evans Parkway, Apple Valley, 92307.
