

TOWN OF APPLE VALLEY TOWN COUNCIL STAFF REPORT

То:	Honorable Mayor and Town Council	Date: April	14, 2015
From:	Carol Miller, Principal Planner Planning Department	Item No:	<u>8</u>

Subject: GENERAL PLAN AMENDMENT NO. 2013-02, A REQUEST FOR APPROVAL OF A GENERAL PLAN AMENDMENT TO CHANGE THE CURRENT LAND USE DESIGNATION OF (R-E) RESIDENTIAL ESTATE (1 DU PER 1 TO 2.5 GROSS ACRES) TO (R-SF) RESIDENTIAL SINGLE-FAMILY (1 DU PER 0.4 TO 0.9 NET ACRES) AND ZONE CHANGE NO. 2013-01 FROM (R-E) RESIDENTIAL ESTATE (1 DU PER 1 TO 2.5 GROSS ACRES) TO (R-SF) RESIDENTIAL SINGLE-FAMILY (1 DU PER 0.4 TO 0.9 NET ACRES) ZONING DESIGNATION

RECOMMENDED ACTION:

Move to open the public hearing and take testimony. Close the public hearing. Then:

- 1. **Determine** that, in conformance with the requirements of the State Guidelines to Implement the California Environmental Quality Act (CEQA), the proposed General Plan Amendment No. 2013-02 and Zone Change No. 2013-01 will not have a significant effect on the environment.
- 2. Adopt the Negative Declaration prepared for General Plan Amendment No. 2013-02 and Zone Change No. 2013-01.
- 3. **Find** that the proposed Resolution and Ordinance are consistent with the Goals and Objectives of the adopted Town of Apple Valley General Plan and, as such, shall promote the health, safety and general welfare of the citizens of Apple Valley, and that Ordinance No. 467 approving conforming rezoning is consistent with the General Plan Amendment established by Resolution No. 2015-09.
- 4. **Find** the facts presented within the staff report, including the attached Planning Commission staff report for February 18, 2015, support the required Findings for approval of the proposed General Plan Amendment and Zone Change and adopt the Findings.
- 5. Adopt Resolution No.2015-09 approving General Plan Amendment No. 2013-02

T.M. Approval: _____ Budgeted Item: _ Yes _ No 🖂 N/A

- 6. **Move** to waive the reading of Ordinance No. 467 in its entirety and read by title only.
- 7. **Introduce** Ordinance No. 467 amending that portion of Title 9 (Development Code) of the Town of Apple Valley Municipal Code, Section 9.05.040 "Adoption of the Official Zoning Map" subsection "B" by approving the conforming rezoning from (R-E) Residential Estate (1 DU per 1 to 2.5 gross acres) to (R-SF) Residential Single-Family (1 DU per 0.4 to 0.9 net Acres) Zoning designation for APNs: 3087-171-07 and easterly portion of 3087-161-04.
- 8. **Direct** staff to file a Notice of Determination with the San Bernardino County Clerk of the Board.

SUMMARY:

The applicant is requesting consideration of a General Plan Amendment and Zone Change. The request is to amend the General Plan and Zoning designations of the property from its existing Residential Estate (R-E) to the Single-Family Residential (R-SF) Land Use designation. If the General Plan Amendment and Zone Change are approved by the Town Council, the property will be allowed to be developed with all uses permitted within the R-SF zoning district.

DISCUSSION:

On December 17, 2014, and February 18, 2015, the Planning Commission conducted public hearings on General Plan Amendment No. 2013-02 and Zone Change No. 2013-01. Following consideration of the information within the staff report, the public hearing and discussion, the Planning Commission voted 4-1 to approve, with Commissioner Shoup voting no.

The review of the General Plan Amendment evaluates consistency with the Goals and Policies of the General Plan and, if it is appropriate, to change the land use designation. In evaluating the appropriateness of changing the General Plan land use and zoning for this site, consideration must also be given to the surrounding land use pattern and lot size. In this instance, the predominant residential zoning in the area is Single-Family Residential (R-SF). The existing zoning designation of R-E allows large animal keeping which is not typical of the area. Therefore, the proposed land use district is more consistent with the surrounding residential zoning and development in the area than the existing R-E designation. If granted, the General Plan Amendment will eliminate such animal keeping, as horses, pigs, sheep, goats, and kennels.

At the adoption of General Plan Amendment and Zone Change, the project's location will be within the Single-Family Residential (R-SF) zoning designation which does not permit horse-sheltering as mentioned above; however, in accordance with the General Plan Recreation Trail System, there is an Equestrian Lifeline Trail that will be required along Deep Creek Road at such time a tentative tract map is submitted. Any future tract map will be required to provide Lifeline trail improvements in accordance with the adopted Equestrian Trails Standards.

Town Council Staff Report Page 3

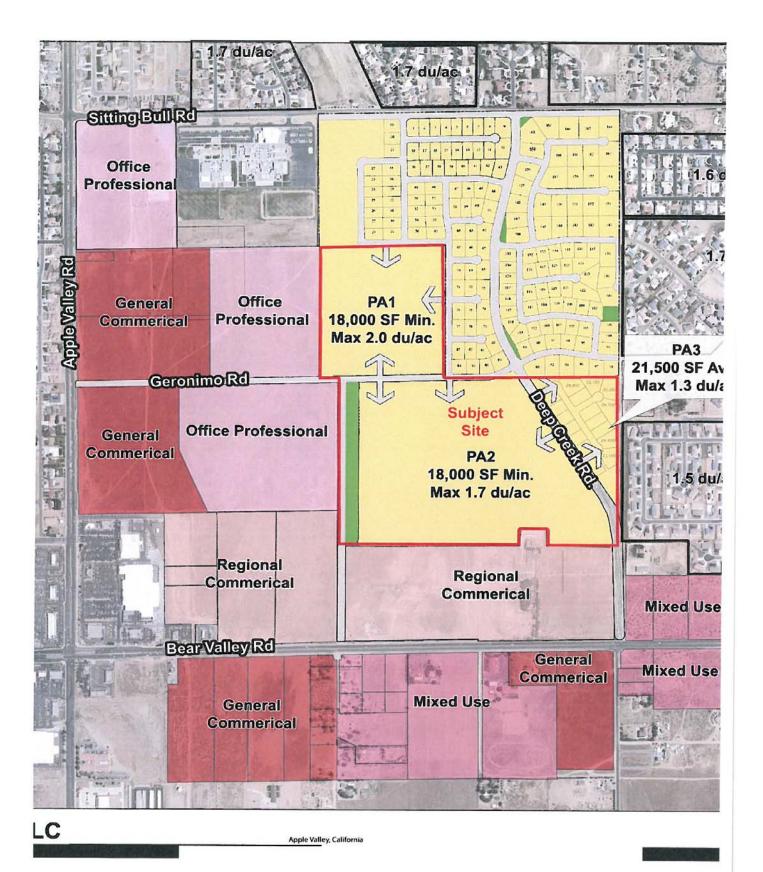

In-lieu of the submittal of the tract map application accompanying the General Plan Amendment and Zone Change simultaneously, the applicant provided a concept illustrating minimum and average lot sizes, and density (attached) to demonstrate the consistency with adjacent lot sizes.

RESOLUTION NO. 2015-09

A RESOLUTION OF THE TOWN COUNCIL OF THE TOWN OF APPLE VALLEY, CALIFORNIA, ADOPTING GENERAL PLAN AMENDMENT NO. 2013-02 A REQUEST FOR APPROVAL OF A GENERAL PLAN AMENDMENT TO CHANGE THE CURRENT LAND USE DESIGNATION OF (R-E) RESIDENTIAL ESTATE (1 DU PER 1 TO 2.5 GROSS ACRES) TO (R-SF) RESIDENTIAL SINGLE-FAMILY (1 DU PER 0.4 TO 0.9 NET ACRES), APNS: 3087-171-07 AND EASTERLY PORTION OF 3087-161-04

WHEREAS, the Town of Apple Valley is required to adopt and maintain a General Plan; and the General Plan, as amended, will comprise an integrated, internally consistent and compatible statement of policies for the Town; and

WHEREAS, the Town of Apple Valley has an adopted General Plan; and

WHEREAS, on March 20, 2015, General Plan Amendment No. 2013-02 was duly noticed in the <u>Apple Valley News</u>, a newspaper of general circulation within the Town of Apple Valley; and

WHEREAS, based upon the State Guidelines to Implement the California Environmental Quality Act (CEQA), a Negative Declaration has been prepared in compliance with the California Environmental Quality Act (CEQA) and State Guidelines for the Implementation of CEQA; and

WHEREAS, the Town Council finds on the basis of the whole record before it, including the Initial Study on file with the Community Development Department and any comments received that there is not substantial evidence that the project will have a significant effect on the environment and that the Negative Declaration reflects the Town Council's independent judgment and analysis, and

WHEREAS, the Town Council hereby finds that the Negative Declaration reflects its independent judgment. A copy of the Initial Study and Negative Declaration may be obtained at: Town of Apple Valley, Planning Division, 14955 Dale Evans Pkwy., Apple Valley, CA 92307, and

WHEREAS, General Plan Amendment No. 2013-02 is consistent with the goals, policies and standards of all elements of the General Plan as amended and will further those goals, policies and standards; and

WHEREAS, the adoption of General Plan Amendment No. 2013-02 conforms with Title 9 (Development Code) of the Municipal Code of the Town of Apple Valley and will promote the health, safety and general welfare of the citizens of the Town of Apple Valley, and the Findings and Comments for the General Plan Amendment set forth in the staff report are hereby adopted; and

WHEREAS, The Town Council conducted a duly noticed public hearing on April 14, 2015 and heard all testimony of any person wishing to speak on the issue and considered the written recommendation of the Planning Commission on the matter.

NOW, THEREFORE, BE IT RESOLVED, that in consideration of the evidence received at the public hearing, and for the reasons discussed by the Town Council at said hearing, the Town Council of the Town of Apple Valley, California orders, determines and resolves as follows:

<u>Section 1.</u> Finds that the changes proposed under General Plan Amendment No. 2013-02 are consistent with the Goals and Policies of the Town of Apple Valley adopted General Plan, as amended, and as amended will comprise an integrated, internally consistent and compatible statement of policies for the Town, and the Amendment will further the public interest and promote the general welfare of the Town by providing for a logical pattern of land uses.

Section 2. The Town Council hereby approves and adopts General Plan Amendment No. 2013-02, amending a portion of the Town of Apple Valley General Plan Land Use Map from Residential Estate (R-E) to Residential Single-Family (R-SF) as shown on attached Exhibit "A".

<u>Section 3.</u> Effective Date. This Resolution shall become effective immediately upon adoption by the Town Council of the Town of Apple Valley.

ADOPTED and **APPROVED** by the Town Council of the Town of Apple Valley this 14th day of April, 2015.

Larry Cusack, Mayor

ORDINANCE NO. 467

AN ORDINANCE OF THE TOWN COUNCIL OF THE TOWN OF APPLE VALLEY, CALIFORNIA, AMENDING THE OFFICIAL ZONING MAP BY CHANGING THE ZONING DESIGNATION FROM (R-E) RESIDENTIAL ESTATE (1 DU PER 1 TO 2.5 GROSS ACRES) TO (R-SF) RESIDENTIAL SINGLE-FAMILY (1 DU PER 0.4 TO 0.9 NET ACRES). APNS: 3087-171-07 AND EASTERLY PORTION OF 3087-161-04

WHEREAS, Title 9 (Development Code) of the Municipal Code of the Town of Apple Valley was adopted by the Town Council on April 27, 2010; and

WHEREAS, Title 9 (Development Code) of the Municipal Code of the Town of Apple Valley has been previously modified by the Town Council on the recommendation of the Planning Commission; and

WHEREAS, specific changes are proposed to Chapter 9.05, Section 9.05.040 "Adoption of the Official Zoning Districts Map" of Title 9 (Development Code) of the Municipal Code of the Town of Apple Valley by amending the zoning designation from Residential Estate (R-E) to Residential Single-Family (R-SF) as shown on Exhibit "B", and incorporated herein by reference; and

WHEREAS, on March 20, 2015, Zone Change No. 2013-01 was duly noticed in the Apple Valley News, a newspaper of general circulation within the Town of Apple Valley; and

WHEREAS, based upon the State Guidelines to Implement the California Environmental Quality Act (CEQA), a Negative Declaration has been prepared in compliance with the California Environmental Quality Act (CEQA) and State Guidelines for the Implementation of CEQA; and

WHEREAS, the Town Council finds on the basis of the whole record before it, including the Initial Study on file with the Community Development Department and any comments received that there is not substantial evidence that the project will have a significant effect on the environment and that the Negative Declaration reflects the Town Council's independent judgment and analysis, and

WHEREAS, the Town Council hereby finds that the Mitigated Negative Declaration reflects its independent judgment. A copy of the Initial Study and Negative Declaration may be obtained at: Town of Apple Valley, Planning Division, 14955 Dale Evans Pkwy., Apple Valley, CA 92307, and

WHEREAS, on April 14, 2015, the Town Council of the Town of Apple Valley conducted a duly noticed and advertised public hearings on Zone Change No. 2013-01, receiving testimony from the public.

NOW, THEREFORE, the Town Council of the Town of Apple Valley, State of California, does ordain as follows:

<u>Section 1.</u> Zone Change No. 2013-01 is consistent with Title 9 (Development Code) of the Municipal Code of the Town of Apple Valley, as amended and shall promote the health, safety and general welfare of the citizens of the Town of Apple Valley.

<u>Section 2.</u> In consideration of the evidence received at the public hearing, and for the reasons discussed by the Council at said hearing, the Town Council of the Town of Apple Valley, California, adopts the Findings and Comments for the Zone Change set forth in the Staff Report, and finds that the change proposed by Zone Change No. 2013-01 is consistent with the Goals and Policies of the Town of Apple Valley adopted General Plan as amended, and with General Plan Amendment No. 2013-02.

<u>Section 3.</u> The Town Council hereby amends that certain portion of Title 9 (Development Code) of the Town of Apple Valley Municipal Code, Section 9.05.040 "Adoption of the Official Zoning Map" subsection "B" by amending the boundaries identified on the Official Zoning Map of the Town of Apple Valley by changing the zoning designation from Residential Estate (R-E) to Residential Single-Family (R-SF)) as shown on attached Exhibit "B", and incorporated herein by reference.

Section 4. Notice of Adoption. The Town Clerk of the Town of Apple Valley shall certify to the adoption of this ordinance and cause publication to occur in a newspaper of general circulation and published and circulated in the Town in a manner permitted under Section 36933 of the Government Code of the State of California.

<u>Section 5.</u> Effective Date. This Ordinance shall become effective thirty (30) days after the date of its adoption.

<u>Section 6.</u> Severability. If any provision of this Ordinance, or the application thereof to any person or circumstance is held invalid, such invalidity shall not affect other provisions or applications and, to this end, the provisions of this Ordinance are declared to be severable.

ADOPTED by the Town Council and signed by the Mayor and attested to by the Town Clerk this 12TH day of May, 2015.

MINUTES

TOWN OF APPLE VALLEY PLANNING COMMISSION Regular Meeting Wednesday, December 17, 2014

2. General Plan Amendment No. 2013-02 and Zone Change No. 2013-01. A request to consider a change to the General Plan and the Zoning land use designations from Residential Estate (R-E) to Residential Single Family (R-SF).

Applicant: Bear Valley & Apple Valley 103, LLC, and Newton T. Bass Trust

Location: The project under consideration is 134-acres in size and is located within the southwest quarter of Section 31 which is generally located at the northeast corner of Apple Valley and Bear Valley Roads; APNs 3087-161-04 and 3087-171-07.

Ms. Carol Miller, Principal Planner, presented the staff report as filed by the Planning Division.

Chairman Kallen opened the public hearing at 6:06 p.m.

Commissioner Shoup questioned why this item was not forwarded to the Equestrian Advisory Committee ("EAC").

Chris Morgan, United Engineering Group, provided the Planning Commission with a history of the project beginning back in 2012. Mr. Morgan advised the Planning Commission that the original General Plan Amendment and Tract Map did go before the EAC for two (2) reasons: 1) relocating the Lifeline Trail and 2) the change in land use designation from Residential Estate ("R-E") to Residential Single Family ("R-SF"). The EAC had recommended that the Residential or Equestrian designation on the northeast portion be larger lots. Those larger lots would accommodate large animal keeping however; the Town Council, based on the surrounding zoning, did not feel that large animal keeping would be appropriate in the area. Based on Council's comments, the fact that there is no tract map proposed, and there is no proposed change to the Lifeline Trail along Deep Creek, staff did not forward this item to the EAC.

Questions were raised as to why the applicant had not brought forth a tract map.

Ms. Miller stated that this General Plan Amendment and Zone Change was just a continuation of the R-SF and that lot design and sizes were not expected at this time, therefore, a tract map was not necessary.

Lengthy discussion ensued regarding; the definition of buffer zones; the property owner's apprehension to bring a map forward at this time due to the uncertain housing market, and re-enforcement of the fact that the project is compatible with the surrounding density. Mr. Morgan asked the Planning Commission to use its discretionary power when the map comes forward on lot sizes.

Mr. Morgan touched briefly on the fact that the Deep Creek area is now considered Phase One of the project.

Commissioner Qualls asked for clarification on the ingress and egress points.

Mr. Morgan indicated that the locations on the Land Use Plan were examples given for the benefit of the Planning Commission and that more than likely changes will occur to those locations.

Commissioner Tinsley stated the primary concern for this hearing is the General Plan Amendment and Zone Change and believed some of the questions posed tonight to the applicant were premature in order for applicant to proceed. He believed the Planning Commission would have a chance to look at the proposed layout at a later date.

Commissioner Shoup wanted to discuss traffic studies and volume that will affect the area and Mr. Morgan indicated that staff could answer his questions in more detail shortly.

PUBLIC COMMENT

Mr. John Laraway, Apple Valley, does not want any changes made to the R-E designation anywhere in Town of Apple Valley. He believed this decision would affect his property and that this is a "for-profit" situation only. He would like to see homes placed on one (1) acre lots or larger, nothing less.

Mr. Al Rice, Apple Valley, stated he received a telephone call from a woman about the sign posted on Sitting Bull Road and indicated there was no date displayed on the posted notice for the public hearing. He felt that there was a defect in the noticing requirements for the public hearing and had many problems with the staff report on this item in that he felt it made no sense.

At the direction of Chairman Kallen, Ms. Miller took this opportunity to explain the noticing requirements to the local residents. In addition, she stated that there were nine (9) or ten (10) returned notices that were undeliverable. Additionally, she did not receive any comments regarding this public hearing.

Mr. Scott Webb, Apple Valley, stated he grew up in Apple Valley and was raising his family here. He read a statement about the numerous general plan amendments that he believed have had a cumulative affect over the last few years. He also expressed his concern with the traffic impact this development would have on the area.

RECESS MEETING

Chairman Kallen declared a recess of the Town of Apple Valley Planning Commission meeting at 6:59 p.m.

RECONVENED MEETING

Chairman Kallen reconvened the Town of Apple Valley Planning Commission meeting at 7:05 p.m.

Mr. John Smith, Apple Valley, stated he moved to the Town of Apple Valley twelve (12) years ago. He thought he was moving into an area that had stability and a sense of

reality. He asked what good it was having a zoning plan if every time you turn around, someone asks for a change. He also stated he believed that the elected Town officials were not being consulted on these types of projects.

Ms. Lovella Sullivan, Apple Valley and Vice-Chairman of the EAC, stated that the EAC had not had an opportunity to review the project. She requested the Planning Commission postpone any decision on the project to allow the EAC a chance to review and consult with her appointer.

Mr. Ray Simms, Apple Valley and Chairman of the EAC, stated development was wonderful and the Town of Apple Valley needed more parks. As far as zone change in the project area, he would like the EAC to have input.

Mr. Morgan took this opportunity to address the concerns of each member of the public who spoke on this project.

Chairman Kallen closed the public hearing at 7:30 p.m.

Mr. Richard Pedersen, Deputy Town Engineer, received the project's traffic study and reviewed it. Prior to the study, he had worked with LSA to identify the locations, choke points, intersections and intersections for major arterials. He was satisfied with the zone change. It doubles the lot size, doubles the traffic and doubles the impact fees to collect. The mitigation in place would ease the impacts. There would be an additional 251 p.m. trips as the worst-case scenario. Bear Valley and Apple Valley Roads are designed for 60,000 plus vehicles per day.

Vice-Chairman Qualls had no problem looking at the Tentative Tract Map later. He would like the EAC to comment on the map so it could bring any comments forward. He believed the Amendment is consistent with Town Council and the General Plan.

Commissioner Lamoreaux believed the project was consistent with what was approved two (2) years ago. He does have some problems with the buffering outlined on the Land Use Map and did not believe office professional was a good buffer. He stated the traffic would be addressed later, the zoning is consistent and the Planning Commission would have another chance to look at the map.

Commissioner Shoup was concerned about the loss of R-E property in the Town of Apple Valley. He believed that R-E zoning was part of the rural heritage and foundation of the community that was based on an equestrian lifestyle. Once the change is made, there would be no going back and a bit of history is lost with those changes. He believed it was premature to vote on the project at this time because there was no map and he would like more specifics. He requested that the Planning Commission delay a vote at this time, as he would move against the project.

Commissioner Tinsley agreed with what the General Plan Advisory Committee was looking for in this area. He did not want to second-guess the Town Council's decision prohibiting large animal keeping in the area and agreed considering the office professional and regional commercial properties at the location. The project followed the General Plan and he agreed the project would fit well in the location. Chairman Kallen also stated the area was not suitable for large animal keeping. He was not comfortable with the zone change for the project. He did not like the fact that the park would be located in a drainage channel. He did believe that the property would be suitable for half (1/2)-acre lots. He would like the EAC to have an opportunity to provide input on the project and he took exception with the fact that the Planning Commission was not able to view a site plan.

Discussion ensued between the Planning Commission and members of the EAC seated in the audience that they would like to review the project, as well as a map.

Ms. Miller stated it was the responsibility of the Planning Commission to ensure that the proposed General Plan Amendment was consistent with the goals, policies and standards of all elements of the General Plan and that it would further those goals, policies and standards and, if appropriate, change the land use designation. She also stated that projects that accompany these types of applications have a shelf life. The project could conceivably expire in five (5) years and the map would expire along with it.

Mr. Morgan stated his desire to present the project to the EAC for their input.

MOTION

Motion by Chairman Kallen, seconded by Commissioner Shoup, that the Planning Commission move to:

1. Continue General Plan Amendment No. 2013-02 and Zone Change No. 2013-01 to the Planning Commission's February 18, 2014 meeting to allow the Applicant, pursuant to Applicant's request, to present the item to the Equestrian Advisory Committee.

TOWN OF APPLE VALLEY PLANNING COMMISSION Regular Meeting Wednesday, February 18, 2015

PUBLIC HEARING ITEMS

2. General Plan Amendment No. 2013-002 and Zone Change No. 2013-001 (*Continued from December 17, 2014*). A request to consider a change to the General Plan and the Zoning land use designations from Residential Estate (R-E) to Residential Single Family (R-SF).

Applicant:Bear Valley & Apple Valley 103, LLC and Newton T Bass TrustLocation:APNs: 3087-171-07 and easterly portion of 3087-161-04

Chairman Kallen opened the public hearing at 6:02 p.m.

Ms. Carol Miller, Principal Planner, presented the staff report as filed by the Planning Division.

Discussion ensued about the park size that was within the previously approved tract and how it would be laid out for the area, the absence of a tract map, and the Planning Commission's concern with basing a decision for approval without a frame of reference, i.e. a tract map.

PUBLIC COMMENT

Matthew Shulenberg, Apple Valley Unified School District, commented on the subject property's potential impact on the student population.

Mr. John Laraway, Apple Valley, CA. commented on the animal restrictions placed on the project and what he believed to be the Town's financial benefit from its approval.

Al Rice, Apple Valley, CA, stated his concern with the lack of community involvement in the project and the increased population/pedestrian traffic.

John Smith, Apple Valley, CA, compared this project to the Tapestry project within the City of Hesperia and commented on what "cost" that project would have in the City of Hesperia and that the same would happen here with this project.

Chairman Kallen closed the public hearing at 6:46 p.m.

Additional discussion ensued about the Planning Commissioner's desire to see a tract map before approval; although most of them believed that the project was compatible with the surrounding area.

MOTION

- Motion by Commissioner Tinsley, seconded by Commissioner Lamoreaux, that the Planning Commission move to:
 - 1. Determine that the proposed General Plan Amendment and Zone Change will not have a significant effect on the environment.
 - 2. Adopt the Negative Declaration finding for GPA 2013-02 and ZC No. 2013-01 on the basis of the whole records before the Planning Commission, including the Initial Study and any comments received, there is no substantial evidence that the project will have a significant effect on the environment and that the Negative Declaration reflects the Town's independent judgment and analysis.
 - 3. Find the facts presented in the staff report support the required Findings for approval and adopt those findings.
 - 4. Adopt Planning Commission Resolution No. 2014-05 recommending approval of GPA 2013-02 and Zone Change 2013-01.

ROLL CALL VOTE

Ayes: Commissioner Lamoreaux Commissioner Tinsley Vice-Chairman Qualls Chairman Kallen Noes: Commissioner Shoup Abstain: None

Absent: None

The motion carried by a 4-1-0-0 vote.

PLANNING COMMISSION RESOLUTION NO. 2014-005

A RESOLUTION OF THE PLANNING COMMISSION OF THE TOWN OF APPLE VALLEY, CALIFORNIA, RECOMENDING THAT THE TOWN COUNCIL APPROVE A GENERAL PLAN AMENDMENT AND ZONE CHANGE FROM ESTATE RESIDENTIAL (R-E) LAND USE AND ZONE DESIGNATION TO SINGLE-FAMILY RESIDENTIAL (R-SF) LAND USE AND ZONE DESIGNATION. APNS 3087-171-07 AND EASTERLY PORTION OF 3087-161-04.

WHEREAS, Title 9 (Development Code) of the Municipal Code of the Town of Apple Valley was adopted by the Town Council on April 27, 2010; and

WHEREAS, The General Plan and Title 9 (Development Code), including the Official Zoning Districts Map of the Municipal Code of the Town of Apple Valley have been previously amended by the Town Council on the recommendation of the Planning Commission; and

WHEREAS, specific changes are proposed to Chapter 9.05, Section 9.05.040 "Adoption of the Official Zoning Districts Map" of Title 9 (Development Code) of the Municipal Code of the Town of Apple Valley by amending the zoning designation of two (2) parcels. The approximately 134-acre site is generally located north of Bear Valley Road and the extension of Deep Creek Road; APNs 3087-171-07 and easterly portion of 3087-161-04.

WHEREAS, on, November 14, 2014, General Plan Amendment No. 2013-02 and Zone Change No. 2013-01 were duly noticed in the Apple Valley News, a newspaper of general circulation within the Town of Apple Valley; and

WHEREAS, based upon the State Guidelines to Implement the California Environmental Quality Act (CEQA), an initial study in compliance with CEQA has been prepared that determined the proposal would not have any adverse impacts that would be potentially significant, with mitigation measures. Therefore, a Negative Declaration is recommended.

WHEREAS, the Planning Commission finds on the basis of the whole record, including the initial study and any comments received that there is no substantial evidence that the project will have a significant effect on the environment and that the Negative Declaration reflects the Planning Commission's independent judgment and analysis, and

WHEREAS, a copy of the Initial Study and Negative Declaration, may be obtained at: Town of Apple Valley, Planning Division, 14955 Dale Evans Pkwy., Apple Valley, CA 92307, and

WHEREAS, on December 17, 2014, the Planning Commission of the Town of Apple Valley opened a duly noticed and advertised public hearing on General Plan Amendment No. 2013-02 and Zone Change No. 2013-01; and

WHEREAS, the proposed General Plan Amendment No. 2013-02 and Zone Change No. 2013-01 are consistent with Town of Apple Valley General Plan and Title 9 (Development Code) of the Municipal Code of the Town of Apple Valley and shall promote the health, safety and general welfare of the citizens of the Town of Apple Valley.

NOW, THEREFORE, BE IT RESOLVED, DETERMINED AND ORDERED THE PLANNING COMMISSION RECOMMENDS THAT THE TOWN COUNCIL FIND AND ACT AS FOLLOWS:

<u>Section 1.</u> In consideration of the evidence received at the public hearing, and for the reasons discussed by the Commissioners at said hearings, the Town Council of the Town of Apple Valley, California, adopts the findings and recommendations in the staff report and finds that the changes proposed under General Plan Amendment No. 2013-02 and Zone Change No. 2013-01 are consistent with the Goals and Policies of the Town of Apple Valley adopted General Plan.

<u>Section 2.</u> Based upon the information contained within the Initial Study and Negative Declaration prepared in conformance with the State Guidelines to Implement the California Environmental Quality Act (CEQA), General Plan Amendment No. 2013-02 and Zone Change No. 2013-01 will not have a significant impact upon the environment and, that based on the whole record, therefore, the Town Council of the Town of Apple Valley should adopt the Negative Declaration for General Plan Amendment No. 2013-02 and Zone Change No. 2013-03 and Zone Change No. 2013-04 adopt the Negative Declaration for General Plan Amendment No. 2013-02 and Zone Change No. 2013-01.

Section 3. Adopt a Town Council Resolution approving a General Plan Amendment as requested. The approximately 134-acre site, consisting of two (2) parcels, generally located north of Bear Valley Road and the extension of Deep Creek; APN 3087-171-07 and easterly portion of 3087-161-04 and as shown on Exhibit "A" attached to this Resolution.

<u>Section 4.</u> Adopt an ordinance amending that certain portion of Title 9 (Development Code) of the Town of Apple Valley Municipal Code, Section 9.05.040 "Adoption of the Official Zoning Map" subsection "B" by approving the Zone Change from Estate Residential (R-E), 1 dwelling unit per 1.0 to 2.5 acres to Single-Family Residential (R-SF), 1 dwelling unit per one-half (1/2)-acre for Assessor Parcels Numbered 3087-171-07 and easterly portion of 3087-161-04 as shown on Exhibit "B" attached to this Resolution.

<u>Section 5.</u> Direct staff to file a Notice of Determination.

Approved and Adopted by the Planning Commission of the Town of Apple Valley this 18th day of February 2015.

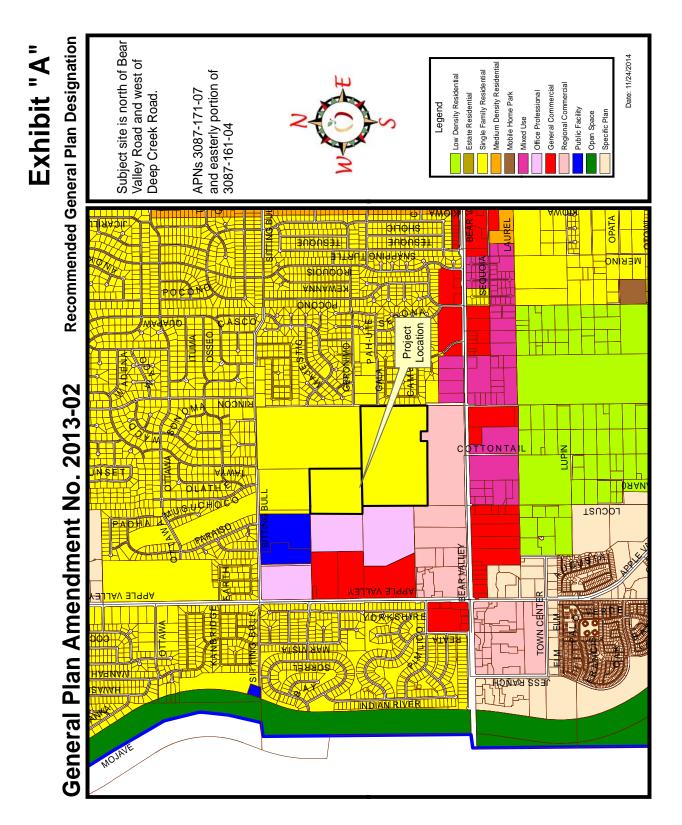

Chairman Kallen

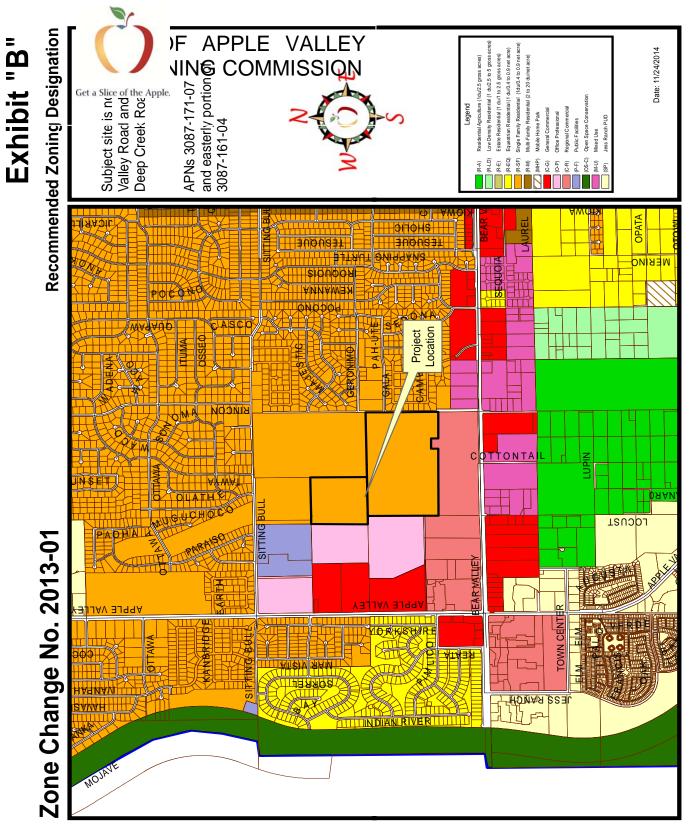

ATTEST:

I, Debra Thomas, Secretary to the Planning Commission of the Town of Apple Valley, California, do hereby certify that the foregoing resolution was duly and regularly adopted by the Planning Commission at a regular meeting thereof, held on the 18th day of February 2015 by the following vote, to-wit:

AYES: NOES: ABSENT: ABSTAIN:

Ms. Debra Thomas, Planning Commission Secretary

Staff Report

- AGENDA DATE: February 18, 2015 (Continued from December 17, 2014)
- CASE NUMBER: General Plan Amendment No. 2013-02 Zone Change No. 2013-01
- APPLICANT: Bear Valley & Apple Valley 103, LLC and Newton T Bass Trust
- **PROPOSAL:**This is a request for approval of a General Plan Amendment to change the
current Land Use designation of (R-E) Residential Estate (1 DU per 1 to 2.5
gross acres) to (R-SF) Residential Single-Family (1 DU per 0.4 to 0.9 net
Acres) and a Zone Change from the current Zoning designation (R-E)
Residential Estate (1 DU per 1 to 2.5 gross acres) to (R-SF) Residential
Single-Family (1 DU per 0.4 to 0.9 net Acres) Zoning designation.
- LOCATION: APNs: 3087-171-07 and easterly portion of 3087-161-04
- **ENVIRONMENTAL** Based upon an Initial Study, pursuant to the State Guidelines to implement the California Environmental Quality Act (CEQA) a Negative Declaration has been prepared.
- CASE PLANNER: Ms. Carol Miller, Principal Planner
- **RECOMMENDATION:** Approval.
- PROJECT SITE AND DESCRIPTION
- A. <u>Project Size</u> The subject area consists of two (2) parcels totaling approximately 134 acres.
- B. <u>General Plan Designations</u>
 - Project Site Residential Estate (R-E) Proposed - Residential Single Family (R-SF)
 - North Residential Single Family (R-SF)
 - South Regional Commercial (C-R)
 - East Residential Single Family (R-SF)
 - West Office Professional (O-P)
- C. <u>Surrounding Zoning and Land Use</u>
 - Project Site Residential Estate (R-E), Vacant
 - Proposed Residential Single Family (R-SF)
 - North Residential Single Family (R-SF), Vacant
 - South Regional Commercial (C-R), Vacant
 - East Residential Single Family (R-SF), Single-Family Residences

West – Office Professional (O-P), Vacant

D. <u>Site Characteristics</u>

The site is currently undeveloped vacant land that has been significantly disturbed due to past agriculture activities, vehicular and pedestrian use, and as such the extent of native vegetation is limited. The site is relatively flat topography with moderate slope along the easterly portion.

E. Equestrian Advisory Committee Review

The project's location is currently within the Residential Estate (R-E) zoning designation with a proposal to amend the General Plan and Zoning designation to Residential Single Family (R-SF), which does not allow large animal keeping. The proposed changes in land use designations were forwarded to the Equestrian Advisory Committee for comment at its January 14, 2015 meeting. The Equestrian Advisory Committee recommends that the Planning Commission move forward with the zone change from Residential Estate (R-E) to Residential Single-Family (R-SF) while keeping with the current trail standards within the property.

ANALYSIS:

A. <u>General</u>

The applicant is requesting consideration of a General Plan Amendment and Zone Change. The request is to amend the General Plan and Zoning designations of the property from its existing Residential Estate (R-E) to the Single-Family Residential (R-SF) Land Use designation. If the General Plan Amendment and Zone Change are approved by the Town Council, the property will be allowed to be developed with all uses permitted within the R-SF zoning district.

The review of the General Plan Amendment evaluates consistency with the Goals and Policies of the General Plan and, if it is appropriate, to change the land use designation. In evaluating the appropriateness of changing the General Plan land use and zoning for this site, consideration must also be given to the surrounding land use pattern and lot size. In this instance, the predominant residential zoning in the area is Single-Family Residential (R-SF). The existing zoning designation of R-E allows large animal keeping which is not typical of the area. Therefore, the proposed land use district is more consistent with the surrounding residential zoning and development in the area than the existing R-E designation. If granted, the General Plan Amendment will eliminate such animal keeping, as horses, pigs, sheep, goats, and kennels.

At the adoption of General Plan Amendment and Zone Change, the project's location will be within the Single-Family Residential (R-SF) zoning designation which does not permit horse-sheltering as mentioned above; however, there are Equestrian Lifeline Trail that will be required along Deep Creek Road in accordance with the General Plan Recreation Trail System at such time a tentative tract map is submitted. Any future tract map will be required to provide Lifeline trail improvements in accordance with the adopted Equestrian Trails Standards.

In-lieu of the submittal of the tract map application accompanying the General Plan Amendment and Zone Change simultaneously, the applicant provided a concept illustrating minimum and average lot sizes, and density (attached) to demonstrate the consistency with adjacent lot sizes. The request is consistent with the goals and policies of the Town's General Plan Land Use and Park and Recreation Elements. Specifically those listed below.

Land Use Element

Goal 2:

A well planned, orderly development pattern that enhances community values, and assures development of adequate infrastructure.

Policy 2.A

The Town shall maintain a land use map that assures a balance of residential, commercial, industrial, open space and public lands.

Program 2.A.2

The Zoning Map shall directly correspond to General Plan land use designations, and shall be kept consistent with the General Plan.

Policy 2.B

All new development and redevelopment proposals shall be required to install all required infrastructure, including roadways and utilities, and shall have complied with requirements for public services prior to occupancy of the project.

Goal 3

Minimal impact to existing neighborhoods.

Program 3.A.1

The Development Code shall include standards for increased setbacks, walls, berms, landscaping, incremental lot sizes, buffering guidelines and recommendations for projects adjoining different or less intense land use designations.

Program 3.A.2

The Development Code will include incentives for creative design, including, but not limited to, varied setbacks, lot patterns, building massing and non-motorized transportation paths and trails.

Goal 4

Safe, attractive and well served residential areas in keeping with the desert environment and its open characteristics.

Policy 4.A

The most intense single-family land use designation shall be 2 units per acre in conformance with the requirements of Measure N.

Program 4.A.1

The minimum lot size for single-family zoning designations in the Development Code shall be no smaller than 18,000 net square feet in conformance with the requirements of Measure N.

Park and Recreation Element Goal 2 Expansion and further development of an integrated and comprehensive bikeway, walking paths and trails system that includes effective signage and supporting facilities to encourage use.

Policy 2.A

In addition to connecting homes to schools, the trails system will connect residential areas to commercial centers, workplaces and recreational facilities.

Program 2.D.1

Improve the quality and connectivity of existing trails and pathways, providing signage and supporting facilities such as rest areas and secure parking for bikes, whenever possible.

The request is a logical extension of the existing R-SF land use designations in the surrounding area and would allow future property owners land use activities similar to those in neighboring properties.

Environmental Assessment

An initial study in compliance with CEQA has been prepared that determined the proposal would not have any adverse impacts that would be potentially significant, with mitigation measures. Therefore, a Negative Declaration is recommended.

<u>Noticing</u>

General Plan Amendment No. 2013-02 and Zone Change No. 2013-01 were advertised as a public hearing in the Apple Valley News newspaper on November 14, 2014 and on January 30, 2015. In addition, a sign is posted on the property as required under Development Code Section 9.13.030 (9). Notice of Hearing was sent to property owners within 1,300 feet.

Findings

In considering any General Plan Amendment or Zone Change, the Council and Commission are required by the Municipal Code to make specific Findings. The following are the Findings for a General Plan Amendment required under Section 9.02.050.H.3 of the Development Code, with a comment to address each:

General Plan Amendment

- 1. The proposed General Plan amendment is consistent with the goals, policies and standards of all elements of the General Plan and will further those goals, policies and standards;
 - Comment: The proposed project is consistent with the goals, policies and standards of all General Plan Elements and will further their implementation. The subject property is suitable for development and will be a logical extension of single-family residential from the north and east. Development will occur in a sequential manner, adjacent to previously developed or developing areas and in ways which allow for clear linkages to circulation and other infrastructure systems. The proposed uses are complementary to the surrounding residential neighborhoods.
- 2. The General Plan, as amended, will comprise an integrated, internally consistent and compatible statement of policies for the Town;
 - Comment: The proposed General Plan Amendment is consistent with the Goals and Policies of both the Land Use Element and the Circulation Element of the

General Plan. Since only the land use designation is being amended, the proposed amendment will comprise an integrated, internally consistent and compatible statement of policies for the Town.

- 3. The General Plan amendment furthers the public interest and promotes the general welfare of the Town by providing for a logical pattern of land uses and clarifying various land use policies for the Town.
 - Comment: The site is the proper location for the single-family residential development furthers the public interest and promotes the general welfare of the Town by providing for a logical pattern of land uses and clarifying various land use policies for the Town.

Zone Change

Development Code section 9.06.060 requires the following findings be made in order to approve Zone Change Amendments to the Development Code:

- 1. The proposed amendment is consistent with the General Plan.
 - Comment: The proposed project is consistent with the goals, policies and standards of all of the General Plan Elements and will further their implementation. The proposed Single-Family Residential zoning designation is consistent with the proposed Residential Single-Family General Plan Designation.
- 2. The proposed Amendment will not be detrimental to the public health, safety or welfare of the Town or its residents.
 - Comment: The request will not adversely affect the health, peace or comfort of persons residing in the area and will not be detrimental to the use, enjoyment or valuation of property of other persons located in the vicinity of the site. The proposed traffic mitigation measures allow the project to stay within the Town's adopted LOS C for impacted intersections and in fact help improve certain existing intersections.

RECOMMENDATION:

Based upon the information contained within this report, and any input received from the public at the hearing, it is recommended that the Planning Commission move to recommend the following to the Town Council:

- 1. Determine that the proposed General Plan Amendment and Zone Change will not have a significant effect on the environment.
- Adopt the Negative Declaration finding for GPA 2013-02 and ZC No. 2013-01 on the basis of the whole record before the Planning Commission, including the Initial Study and any comments received, there is no substantial evidence that the project will have a significant effect on the environment and that the Negative Declaration reflects the Town's independent judgment and analysis.
- 3. Find that the facts presented in the staff report support the required Findings for approval and adopt those findings.
- 4. Adopt Planning Commission Resolution No. 2014-05 recommending approval of GPA 2013-02 and Zone Change 2013-01.

PLANNING COMMISSION RESOLUTION NO. 2014-005

A RESOLUTION OF THE PLANNING COMMISSION OF THE TOWN OF APPLE VALLEY, CALIFORNIA, RECOMENDING THAT THE TOWN COUNCIL APPROVE A GENERAL PLAN AMENDMENT AND ZONE CHANGE FROM ESTATE RESIDENTIAL (R-E) LAND USE AND ZONE DESIGNATION TO SINGLE-FAMILY RESIDENTIAL (R-SF) LAND USE AND ZONE DESIGNATION. APNS 3087-171-07 AND EASTERLY PORTION OF 3087-161-04.

WHEREAS, Title 9 (Development Code) of the Municipal Code of the Town of Apple Valley was adopted by the Town Council on April 27, 2010; and

WHEREAS, The General Plan and Title 9 (Development Code), including the Official Zoning Districts Map of the Municipal Code of the Town of Apple Valley have been previously amended by the Town Council on the recommendation of the Planning Commission; and

WHEREAS, specific changes are proposed to Chapter 9.05, Section 9.05.040 "Adoption of the Official Zoning Districts Map" of Title 9 (Development Code) of the Municipal Code of the Town of Apple Valley by amending the zoning designation of two (2) parcels. The approximately 134-acre site is generally located north of Bear Valley Road and the extension of Deep Creek Road; APNs 3087-171-07 and easterly portion of 3087-161-04.

WHEREAS, on, November 14, 2014, General Plan Amendment No. 2013-02 and Zone Change No. 2013-01 were duly noticed in the Apple Valley News, a newspaper of general circulation within the Town of Apple Valley; and

WHEREAS, based upon the State Guidelines to Implement the California Environmental Quality Act (CEQA), an initial study in compliance with CEQA has been prepared that determined the proposal would not have any adverse impacts that would be potentially significant, with mitigation measures. Therefore, a Negative Declaration is recommended.

WHEREAS, the Planning Commission finds on the basis of the whole record, including the initial study and any comments received that there is no substantial evidence that the project will have a significant effect on the environment and that the Negative Declaration reflects the Planning Commission's independent judgment and analysis, and

WHEREAS, a copy of the Initial Study and Negative Declaration, may be obtained at: Town of Apple Valley, Planning Division, 14955 Dale Evans Pkwy., Apple Valley, CA 92307, and

WHEREAS, on December 17, 2014, the Planning Commission of the Town of Apple Valley opened a duly noticed and advertised public hearing on General Plan Amendment No. 2013-02 and Zone Change No. 2013-01; and

WHEREAS, the proposed General Plan Amendment No. 2013-02 and Zone Change No. 2013-01 are consistent with Town of Apple Valley General Plan and Title 9 (Development Code) of the Municipal Code of the Town of Apple Valley and shall promote the health, safety and general welfare of the citizens of the Town of Apple Valley.

NOW, THEREFORE, BE IT RESOLVED, DETERMINED AND ORDERED THE PLANNING COMMISSION RECOMMENDS THAT THE TOWN COUNCIL FIND AND ACT AS FOLLOWS:

<u>Section 1.</u> In consideration of the evidence received at the public hearing, and for the reasons discussed by the Commissioners at said hearings, the Town Council of the Town of Apple Valley, California, adopts the findings and recommendations in the staff report and finds that the changes proposed under General Plan Amendment No. 2013-02 and Zone Change No. 2013-01 are consistent with the Goals and Policies of the Town of Apple Valley adopted General Plan.

<u>Section 2.</u> Based upon the information contained within the Initial Study and Negative Declaration prepared in conformance with the State Guidelines to Implement the California Environmental Quality Act (CEQA), General Plan Amendment No. 2013-02 and Zone Change No. 2013-01 will not have a significant impact upon the environment and, that based on the whole record, therefore, the Town Council of the Town of Apple Valley should adopt the Negative Declaration for General Plan Amendment No. 2013-02 and Zone Change No. 2013-01.

<u>Section 3.</u> Adopt a Town Council Resolution approving a General Plan Amendment as requested. The approximately 134-acre site, consisting of two (2) parcels, generally located north of Bear Valley Road and the extension of Deep Creek; APN 3087-171-07 and easterly portion of 3087-161-04 and as shown on Exhibit "A" attached to this Resolution.

<u>Section 4.</u> Adopt an ordinance amending that certain portion of Title 9 (Development Code) of the Town of Apple Valley Municipal Code, Section 9.05.040 "Adoption of the Official Zoning Map" subsection "B" by approving the Zone Change from Estate Residential (R-E), 1 dwelling unit per 1.0 to 2.5 acres to Single-Family Residential (R-SF), 1 dwelling unit per one-half (1/2)-acre for Assessor Parcels Numbered 3087-171-07 and easterly portion of 3087-161-04 as shown on Exhibit "B" attached to this Resolution.

<u>Section 5.</u> Direct staff to file a Notice of Determination.

Approved and Adopted by the Planning Commission of the Town of Apple Valley this 18th day of February 2015.

Chairman Kallen

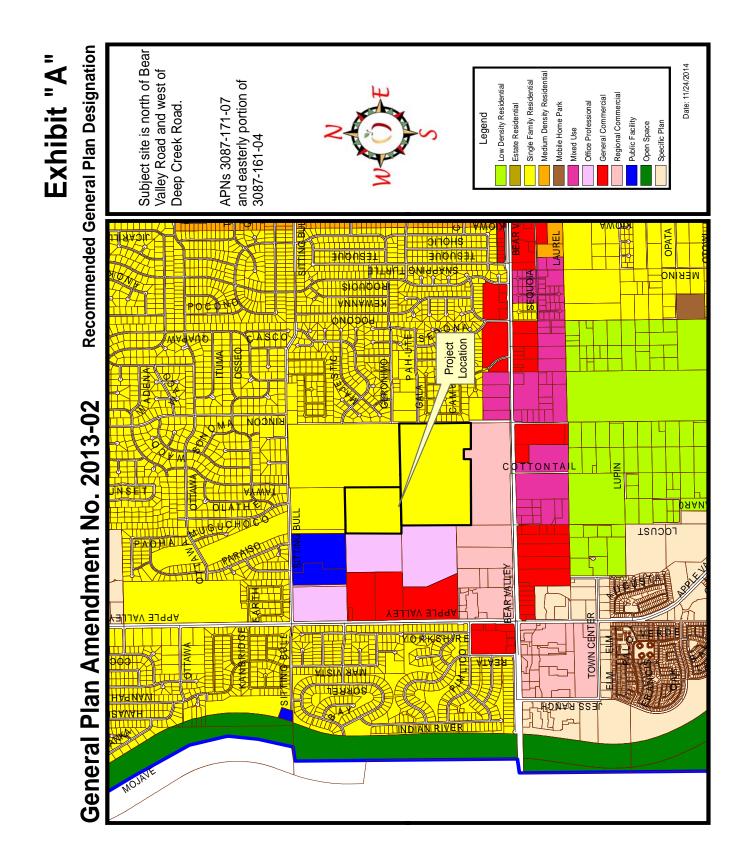

ATTEST:

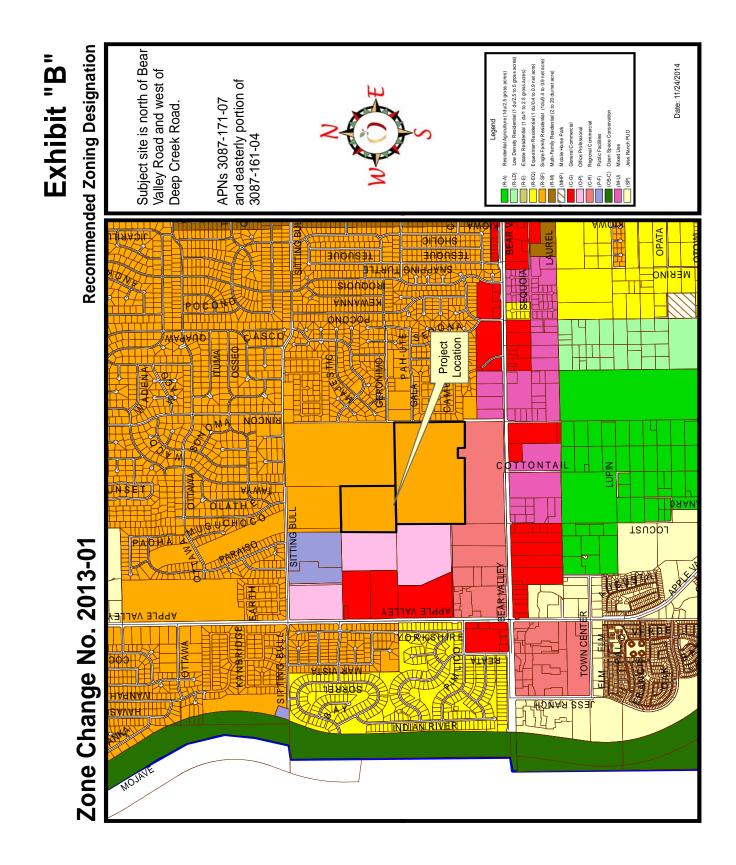

I, Debra Thomas, Secretary to the Planning Commission of the Town of Apple Valley, California, do hereby certify that the foregoing resolution was duly and regularly adopted by the Planning Commission at a regular meeting thereof, held on the 18th day of February 2015 by the following vote, to-wit:

TOWN OF APPLE VALLEY INITIAL STUDY ENVIRONMENTAL CHECKLIST FORM

This form and the descriptive information in the application package constitute the contents of Initial Study pursuant to Town of Apple Valley Development Code and Section 15063 of the Sate CEQA Guidelines.

PR	OJECT INFORMATION	
1.	Project title:	General Plan Amendment No. 2013-02
	-	Zone Change No. 2013-01
2.	Lead agency name and address:	Town of Apple Valley
		Planning Division
		14955 Dale Evans Parkway
		Apple Valley, CA 92307
3.	Contact person and phone number:	Carol Miller, Principal Planner
		(760) 240-7000 Ext 7222
4.	Applicant's name and address:	Bear Valley & Apple Valley 103, LLC
		8800 N. Gainey Center Dr #255
		Scottsdale, AZ. 85258
		Newton T Bass Trust
		14924 Chamber Lane

Project location and Assessor's Parcel Number: Subject site is north of Bear Valley Road and west of deep Creek Road. APNs: 3087-161-04 & 3087-171-07

Apple Valley, Ca. 92308

6. **Description of project** (Describe the whole action involved, including but not limited to later phases of the project, and any secondary, support, or off-site features necessary for its implementation):

This Initial Study is for General Plan Amendment No. 2013-02 and Zone Change No. 2013-01. The proposed amendments would change the project site from (R-E) Residential Estate (1 DU per 1 to 2.5 gross acres) to R-SF Residential Single Family (1 DU per 0.4 to 0.9 net Acres).

ENVIRONMENTAL/EXISTING SITE CONDITIONS

The 134 acre site is currently undeveloped vacant land that has been significantly disturbed due to past agriculture activities, and as such the extent of native vegetation is very limited. The site has relatively flat land.

	TOWN OF APPLE VALLEY GENERAL PLAN DESIGNATION	TOWN OF APPLE VALLEY ZONING DISTRICT	EXISTING LAND USE
Site	R-E – Estate Residential (Proposed R-SF - Residential Single Family)	R-E – Estate Residential (Proposed R-SF - Residential Single Family)	Vacant
North	R-SF - Residential Single	R-SF - Residential Single Family	Vacant

	Family		
South	C-R – Regional Commercial	C-R – Regional Commercial	Vacant
East	R-SF - Residential Single Family	R-SF - Residential Single Family	Vacant & Single-Family Residential
West	O-P – Office Professional	O-P – Office Professional	Vacant

ENVIRONMENTAL FACTORS POTENTIALLY AFFECTED

The environmental factors checked below would be potentially affected by this project, involving at least one impact that is a "Potentially Significant Impact: as indicated by the checklist on the following pages.

Aesthetics	Agriculture and Forestry Resources	Air Quality
Biological Resources	Cultural/Paleontological	Geology/Soils
Greenhouse Gas Emissions	Hazards & Hazardous Materials	Hydro/Water Quality
Land Use/Planning	Mineral Resources	Noise
Population/Housing	Public Services	Recreation
Transportation/Traffic	Utilities/Service Systems	Mandatory Findings of Significance

DETERMINATION: (To be completed by the lead Agency):

On the basis of this initial evaluation, the following finding is made:

- The proposed project COULD NOT have a significant effect on the environment, and a NEGATIVE DECLARATION will be prepared.
- Although the proposed project could have a significant effect on the environment, there will not be a significant effect in this case because revisions in the project have been made by or agreed to by the project proponent. A MITIGATED NEGATIVE DECLARATION will be prepared.
- The proposed project MAY have a significant effect on the environment, and ENVIRONMENTAL IMPACT REPORT is required.
- The proposed project MAY have a "potentially significant impact" or "potentially significant unless mitigated" impact on the environment, but at least one effect 1) has been adequately analyzed in an earlier document pursuant to applicable legal standards, and 2) has been addressed by mitigation measures based on the earlier analysis as described on attached sheets. An ENVIRONMENTAL IMPACT REPORT is required, but it must analyze only the effects that remain to be addressed.
- Although the proposed project could have a significant effect on the environment, because all potentially significant effects (a) have been analyzed adequately in an earlier EIR or NEGATIVE DECLARATION pursuant to applicable standards, and (b) have been avoided or mitigated pursuant to

that earlier EIR or NEGATIVE DECLARATION, including revisions or mitigation measures that are imposed upon the proposed project, nothing further is required.

Carol Miller, Principal Planner

Date

Lori Lamson Assistant Town Manager Date

EVALUATION OF ENVIRONMENTAL IMPACTS:

- 1) A brief explanation is required for all answers except "No Impact" answers that are adequately supported by the information sources a lead agency cites in the parentheses following each question. A "No Impact" answer is adequately supported if the referenced information sources show that the impact simply does not apply to projects like the one involved (e.g. the project falls outside a fault rupture zone). A "No Impact" answer should be explained where it is based on project-specific factors as well as general standards (e.g. the project will not expose sensitive receptors to pollutants, based on a projectspecific screening analysis).
- 2) All answers must take account of the whole action involved, including off-site as well as on-site, cumulative as well as project-level, indirect as well as direct, and construction as well as operational impacts.
- 3) Once the lead agency has determined that a particular physical impact may occur, then the checklist answers must indicate whether the impact is potentially significant, less than significant with mitigation, or less than significant. "Potentially Significant Impact" is appropriate if there is substantial evidence that an effect is significant. If there are one or more "Potentially Significant Impact" entries when the determination is made, an EIR is required.
- 4) "Negative Declaration: Less Than Significant With Mitigation Incorporated" applies where the incorporation of mitigation measures has reduced an effect from "Potentially Significant Impact" to a "Less than Significant Impact." The lead agency must describe the mitigation measures, and briefly explain how they reduce the effect to a less than significant level (mitigation measures from Section XVII, "Earlier Analyses," may be cross-referenced).
- 5) Earlier analyses may be used where, pursuant to the tiering, program EIR, or other CEQA process, an effect has been adequately analyzed in an earlier EIR or negative declaration. Section 15063(c)(3)(D). In this case, a brief discussion should identify the following:
 - a) Earlier Analyses Used. Identify and state where they are available for review.
 - b) Impacts Adequately Addressed. Identify which effects from the above checklist were within the scope of and adequately analyzed in an earlier document pursuant to applicable legal standards, and state whether such effects were addressed by mitigation measures based on the earlier analysis.
 - c) Mitigation Measures. For effects that are "Less than Significant with Mitigation Measures Incorporated," describe the mitigation measures which were incorporated or refined from the earlier document and the extent to which they address site-specific conditions for the project.
- 6) Lead agencies are encouraged to incorporate into the checklist references to information sources for potential impacts (e.g. general plans, zoning ordinances). Reference to a previously prepared or outside document should, where appropriate, include a reference to the page or pages where the statement is substantiated.
- 7) Supporting Information Sources. A source list should be attached and other sources used or individuals contacted should be cited in the discussion.
- 8) This is only a suggested form, and lead agencies are free to use different formats; however, lead agencies should normally address the questions from this checklist that are relevant to a project's environmental effects in whatever format is selected.
- 9) The explanation of each issue should identify:
 - a) The significance criteria or threshold, if any, used to evaluate each question; and
 - b) The mitigation measure identified, if any, to reduce the impact to less than significance.

I. AESTHETICS

Would the project:

		Potentially Significant Impact	Less than Significant with Mitigation Incorp.	Less than Significant Impact	No Impact
a)	Have a substantial adverse effect on a scenic vista?				\boxtimes
b)	Substantially damage scenic resources, including, but not limited to, trees, rock outcroppings, and historic buildings within a state scenic highway?				\boxtimes
c)	Substantially degrade the existing visual character or quality of the site and its surroundings?				\boxtimes
d)	Create a new source of substantial light or glare which would adversely affect day or nighttime views in the area?				\boxtimes

SUBSTANTIATION (check if project is located within the view shed of any Scenic Route listed in the General Plan):

a-d. **No Impact.** The proposed General Plan Amendment and Zone Change which, in and of itself does not directly involve the development on any of the parcels. The subject properties are currently vacant. Nevertheless, the subject property is not located along, nor within the viewshed of a Scenic Route listed in the County General Plan, Town General Plan or designated by the State of California.

II. AGRICULTURE AND FORESTRY RESOURCES

In determining whether impacts to agricultural resources are significant environmental effects, lead agencies may refer to the California Agricultural Land Evaluation and Model (1997) prepared by the Site Assessment California Dept. of Conservation as an optional model to use in assessing impacts on agriculture and farmland. In determining whether impacts to forest resources, including timberland, are significant environmental effects, lead agencies may refer to information compiled by the California Department of Forestry and Fire Protection regarding the state's inventory of forest land, including the Forest and Range Assessment Project and the Forest Legacy Assessment Project; and forest carbon measurement methodology provided in Forest Protocols adopted by the California Air Resources Board.

Town Council Staff Report Page 39

Would the project:

** (uie project.	Potentially Significant Impact	Less than Significant with Mitigation Incorp.	Less than Significant Impact	No Impact
a)	Convert Prime Farmland, Unique Farmland, or Farmland of Statewide Importance (Farmland), as shown on the maps prepared pursuant to the Farmland Mapping and Monitoring Program of the California Resources Agency, to non-agricultural				
	use?			\boxtimes	
b)	Conflict with existing zoning for agricultural use, or a Williamson Act contract?			\boxtimes	
c)	Conflict with existing zoning for, or cause rezoning of, forest land (as defined in Public Resources Code section 12220(g), timberland as defined in Public Resources Code section 4526), or timberland zoned Timberland Production (as defined by Gov't. Code section 51104(g))?				\boxtimes
d)	Result in the loss of forest land or conservation of				
	forest land to non-forest use?				\boxtimes
e)	Involve other changes in the existing environment which, due to their location or nature, could result in conversion of farmland, to non-agricultural use or conversion of forest land to non-forest use?			\boxtimes	

SUBSTANTIATION (check if project is located in the Important Farmlands Overlay):

a&e. Less than Significant Impact. The proposed General Plan Amendment and Zone Change which, in and of itself does not directly involve the development on any of the parcels. The subject properties are currently vacant. Nevertheless, the subject property contains two agricultural designations as determined by the California Department of Conservation, Farmland Mapping and Monitoring Program (FMMP).

To determine the significance of this farmland conversion, the California Agricultural Land Evaluation and Site Assessment Model (LESA) was used. The LESA model rates the relative quality of land resources based upon specific measurable features. The model is composed of six different factors. Two Land Evaluation factors are based upon measures of soil resources quality. Four Site Assessment factors provide measures of a given project's size, water resource availability, surrounding agricultural lands, and surrounding protected resource lands. Given the limited size, water availability and surrounding development, re-establishing the site with an agricultural use does not make the site a prime location; therefore, any impact to farming activity is less than significant.

b. Less than Significant Impact. The proposed project site is known to have been used for agricultural activities several years ago. However, no agricultural uses currently exist on the site. The project site is zoned Residential Estate and no Williamson Act contract is in effect; therefore, development of the project

site will not conflict with or impact existing zoning for agricultural use or a Williamson Act contract and impacts are considered less than significant to no impact.

c&d **No Impact.** Forest land is defined as "land that can support 10% native tree cover of any species, including hardwoods, under natural conditions, and that allows for management of one or more forest resources, including timber, aesthetics, fish and wildlife, biodiversity, water quality, recreation, and other public benefits" (Public Resources Code section 12220(g). Timberland is define as "land, other than land owned by the federal government and land designated by the Board of Experimental forestland, which is available for, and capable of, growing a crop of trees of any commercial species used to produce lumber and other forest products, including Christmas trees" (Public Resources Code section 4526). A Timberland Production Zone is defined as "an area which has been zoned pursuant to Section 51112 or 51113 and is devoted to and used for growing and harvesting timber and compatible uses, as defined in subdivision" (Gov't Code section 51104(g)). The site does not contain forest land.

III. AIR QUALITY

Where available, the significance criteria established by the applicable air quality management or air pollution control district may be relied upon to make the following determinations.

Would the project:

		Potentially Significant Impact	Less than Significant with Mitigation Incorp.	Less than Significant Impact	No Impact	
a)	Conflict with or obstruct implementation of the applicable air quality plan?				\boxtimes	
b)	Violate any air quality standard or contribute substantially to an existing or projected air quality violation?				\boxtimes	
c)	Result in a cumulatively considerable net increase of any criteria pollutant for which the project region is non attainment under an applicable federal or state ambient air quality standard (including releasing emissions which exceed quantitative thresholds for ozone precursors)?					
d)	Expose sensitive receptors to substantial pollutant concentrations?			\boxtimes		
e)	Create objectionable odors affecting a substantial number of people?				\boxtimes	
<u>a</u> -						

Dotontially

Loca than

Loca than

No

SUBSTANTIATION:

a-c,e. **No Impact**. The proposed General Plan Amendment and Zone Change, in and of itself will not violate any air quality standards. No new construction is proposed as the project is only for a change in General Plan land use designation and zoning. However, the project areas are located within the Mojave Desert

Air Quality Management District (MDAQMD) which lies in the San Bernardino County portion of the Mojave Desert Air Basin (MDAB). This portion of the basin has been designated as a 'non-attainment' area with respect to violating National Air Quality Standards for particulate matter classified as equal to, or smaller than, 10 microns in diameter (PM_{10}). Any future development is required to comply with any applicable air quality standards.

d. **Less than Significant Impact.** The proposed General Plan Amendment and Zone Change, in and of itself will not violate any air quality standards. No new construction is proposed as the project is only for a change in General Plan land use designation and zoning. Nevertheless, there are not sensitive receptors adjacent to the subject property.

IV. BIOLOGICAL RESOURCES

Would the project:

- a) Have a substantial adverse effect, either directly or through habitat modifications, on any species identified as a candidate, sensitive, or special status species in local or regional plans, policies, or regulations, or by the California Department of Fish and Game or U.S. Fish and Wildlife Service?
- b) Have a substantial adverse effect on any riparian habitat or other sensitive natural community identified in local or regional plans, policies, regulations or by the California Department of Fish and Game or US Fish and Wildlife Service?
- c) Have a substantial adverse effect on federally protected wetlands as defined by Section 404 of the Clean Water Act (including, but not limited to, marsh, vernal pool, coastal, etc.) through direct removal, filling, hydrological interruption, or other means?
- d) Interfere substantially with the movement of any native resident or migratory fish or wildlife species or with established native resident or migratory wildlife corridors, or impede the use of native wildlife nursery sites?
- e) Conflict with any local policies or ordinances protecting biological resources, such as a tree preservation policy or ordinance?
- f) Conflict with the provisions of an adopted Habitat Conservation Plan, Natural Community Conservation

Potentially Significant Impact	Less than Significant with Mitigation Incorp.	Less than Significant Impact	No Impact
		\boxtimes	
		\boxtimes	
			\boxtimes

Plan, or other approved local, regional, or state habitat conservation plan?

SUBSTANTIATION (check if project is located in the Biological Resources Overlay or contains habitat for any species listed in the California Natural Diversity Database):

a,b,d **No Impact**. The analysis for potential effect on sensitive or special status species is based on the *Biological Survey Report* dated October 4, 2013, completed by RCA Associates, Inc. (RCA). Protected sensitive species are classified by either State or Federal resource management agencies, or both, as threatened or endangered, under provisions of the State and Federal Endangered Species Acts. RCA conducted a focused biological assessment of the subject site. Biological surveys were conducted for the desert tortoise (*Gopherus agassizii*), Mohave ground squirrel (*Spermophilus mohavensis*), burrowing owl (*Athene cunicularia hypugaea*), sharp-shinned hawk (*Accipiter striatus*), and loggerhead shrike (*Lanius ludovicianus*). According to RCA Associates, the parcels included in the project area have been significantly disturbed by past human activities. Therefore, the loss of the vegetation on the site is not considered to be a significant and therefore, less than significant.

- c. No Impact. The site does not contain wetlands. Therefore, no impacts related to this issue are anticipated.
- e. **No Impact.** The site does not contain Joshua trees due in part to the numerous years the site has been utilized for agricultural uses. Therefore, no impacts related to this issue are anticipated.
- f. **No Impact**. Areas of valuable habitat that support special status species are illustrated in the Biological Resources Study of the Town's General Plan EIR. The General Plan includes policies and programs intended to ensure that habitat connectivity is preserved in the Town. In addition, a number of special survey areas in the Town's planning area are identified in the General Plan. Species for which surveys are required as part of development applications include Desert Tortoise, Mojave Ground Squirrel, Burrowing Owls, Joshua Trees, and/or Migratory/Nesting/Other Protected Birds. The proposed amendment would not conflict with the provisions of an adopted Habitat Conservation Plan, Natural Community Conservation Plan or other approved local, regional or state habitat conservation plan because no such plan has been adopted in the area of the project site.

V. CULTURAL RESOURCES

Would the project:

		Potentially Significant Impact	Less than Significant with Mitigation Incorp.	Less than Significant Impact	No Impact
a)	Cause a substantial adverse change in the significance of a historical resource as defined in \$15064.5?				\boxtimes
b)	Cause a substantial adverse change in the significance of an archaeological resource pursuant to \$15064.5?				\boxtimes
c)	Directly or indirectly destroy a unique paleontological resource or site or unique geologic feature?				

 \boxtimes

d) Disturb any human remains, including those interred outside of formal cemeteries?

SUBSTANTIATION (check if the project is located in the Cultural _____ or Paleontological _____ Resources overlays or cite results of cultural resource review):

- a&b **No Impact**. Although the proposed General Plan Amendment and Zone Change, in and of itself does not directly involve the development of any of the parcels, a cultural resource assessment of the subject area was conducted by BCR Consulting Inc. dated July 2, 2014. A portion of the subject site is the former Viking Ranch track and stable. Recordation of the Viking Ranch track and stable foundation was considered sufficient mitigation for the resource. Therefore, based on the assessment no additional cultural resources work or monitoring is necessary. Therefore, no mitigation is necessary and no impact is anticipated.
- c. Less than Significant Impact The project site is not located in an area identified as highly sensitive for paleontological resources as shown in Exhibit III-5 of the General Plan EIR. No proposal for land development is proposed at this time. In accordance with the General Plan FEIR mitigation measure, a Paleontological resource study is required prior to development. The studies shall be reviewed and approved by the Town Planning Division prior to the issuance of any ground disturbing permit.
- d. Less than Significant Impact. The proposed project site is not known to have been utilized for religious or sacred purposes. No evidence is in place to suggest the project site has been used for human burials. If human remains are encountered, State Health and Safety Code Section 7050.5 states that no further disturbance shall occur until the County Coroner has made a determination of origin and disposition pursuant to Public Resources Code Section 5097.98. The County Coroner must be notified of the find immediately. If the remains are determined to be prehistoric, the Coroner will notify the Native American Heritage Commission (NAHC), which will determine and notify a Most Likely Descendant (MLD). With the permission of the landowner or his/her authorized representative, the MLD may inspect the site of the discovery. The MLD shall complete the inspection within 24 hours of notification by the NAHC. The MLD may recommend scientific removal and nondestructive analysis of human remains and items associated with Native American burials. As adherence to State regulations is required for all development, no mitigation is required in the unlikely event human remains are discovered on-site. Impacts associated with this issue are considered less than significant.

VI. GEOLOGY AND SOILS

Would the project:

a)	Expose people or structures to potential substantial adverse effects, including the risk of loss, injury, or death involving:	Potentially Significant Impact	Less than Significant with Mitigation Incorp.	Less than Significant Impact	No Impact	
	i) Rupture of a known earthquake fault, as delineated on the most recent Alquist-Priolo Earthquake Fault Zoning Map issued by the State Geologist for the area or based on other substantial evidence of a known fault? Refer to Division of Mines and Geology Special Publication 42.					

8-43

 \square \square \square \boxtimes ii) Strong seismic ground shaking? iii) Seismic-related including ground failure. liquefaction? \square iv) Landslides? \square b) Result in substantial soil erosion or the loss of \boxtimes topsoil? c) Be located on a geologic unit or soil that is unstable, or that would become unstable as a result of the project, and potentially result in on- or off-site landslide, lateral spreading, subsidence, liquefaction or collapse? \boxtimes d) Be located on expansive soil, as defined in Table 18 1-B of the Uniform Building Code (1994), creating substantial risks to life or property? \square e) Have soils incapable of adequately supporting the use of septic tanks or alternative waste water disposal systems where sewers are not available for \boxtimes the disposal of waste water?

SUBSTANTIATION (check _ if project is located in the Geologic Hazards Overlay District):

- a (i). **No Impact**. The site is not located within the boundaries of an earthquake fault zone for fault-rupture hazard as defined by the Alquist-Priolo Earthquake Fault Zoning Act. No known active or potentially active faults traverse the site as shown on the California Geologic Survey Map (2002). The nearest fault zone is the North Frontal Fault Zone located approximately five (5) miles to the southeast. Therefore, no impact associated with the rupture of a known earthquake fault would occur. **Source:** Town of Apple Valley, General Plan EIR
- a(ii) **No Impact**. Like all of southern California, the Mojave Desert is a seismically active region. The proposed project site is located in a seismically active area and, therefore, will continue to be subject to ground shaking resulting from activity on local and regional faults. The proposal is a General Plan Amendment and Zone Change only. Therefore, any future construction in the project area will conform to the requirements of the Uniform Building Code (UBC). The California Building Code (California Code of Regulations, Title 24) establishes engineering standards appropriate for the seismic zone in which development may occur. Adherence to the UBC and the California Building Code (CBC) standards will ensure potential ground shaking impacts are reduced to a less than significant level.
- a(iii) **No Impact**. Liquefaction, the loss of soil strength or stiffness due to a buildup of excess pore-water pressure during strong ground shaking is considered unlikely on the project site. Considering the geologic setting of the project site, the composition of on-site soils, available water well data, and the lack of groundwater the potential for liquefaction to occur on the project site during a seismic event is low. Nevertheless, prior to future development, a soils report will be required.

Town Council Staff Report Page 45

- a(iv) **No Impact**. The proposed General Plan Amendment and Zone Change has no development proposed at this time. Therefore, the proposal will not subject anyone or structure to landslides.
- b-d **No Impact**. Soils on site consist of Bryman Loamy Fine Sand, Cajon Sand, Kimberlina Loamy Fine Sand, and Helendale Loamy Sand. Future development of the properties will require the excavation, stockpiling, and movement of on-site soils to create the residential pads and proposed new roadways. Currently, construction projects resulting in the disturbance of one (1) acre or more are required to obtain a National Pollutant Discharge Elimination System (NPDES) permit issued by the Regional Water Quality Control Board (RWQCB). Because no development is proposed at this time no impact related to this issue will occur.
- e. **No Impact**. Any future development will be required to connect to the existing sanitary sewer system. Because septic or alternative waste disposal systems will not be utilized, no impact related to this issue will occur.

VII. GREENHOUSE GAS EMISSIONS

Would the project:

		Potentially Significant Impact	Less than Significant with Mitigation Incorp.	Less than Significant Impact	No Impact
a)	Generate greenhouse gas emissions, either directly or indirectly, that may have a significant impact on the environment?			\boxtimes	
b)	Conflict with any applicable plan, policy or regulation of an agency adopted for the purpose of reducing the emissions of greenhouse gases?			\boxtimes	

SUBSTANTIATION:

- a. Less than Significant Impact. According to the Town's General Plan, air quality is a concern due to human health issues, and because air pollutants are thought to be contributing to global warming and climate change. Air pollution is defined as a chemical, physical or biological process that modifies the characteristics of the atmosphere. A detailed description of each of the greenhouse gases and their global warming potential are provided in *Air Quality* of the Town's General Plan EIR. Future new development will be required to comply with the Town's Climate Action Plan.
- b. Less than Significant Impact. The proposed General Plan Amendment and Zone Change will not conflict with the provisions of any adopted, applicable plan, policy or regulation. On July 13, 2010, the Town adopted a Climate Action Plan and as updated in September of 2014 enhances the General Plan's goals, policies and programs relating to meeting the greenhouse gas emission targets established in the California Global Warming Solutions Act. Future new development will be required to comply with the Town's CAP.

VIII. HAZARDS AND HAZARDOUS MATERIALS

Would the project:

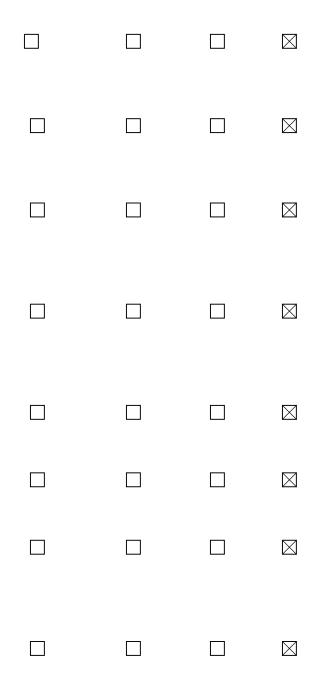

Potentially	Less than	Less than	No
Significant	Significant	Significant	Impact
Impact	with Mitigation	Impact	

- a) Create a significant hazard to the public or the environment through the routine transport, use, or disposal of hazardous materials?
- b) Create a significant hazard to the public or the environment through reasonably foreseeable upset and accident conditions involving the release of hazardous materials into the environment?
- c) Emit hazardous emissions or handle hazardous or acutely hazardous materials, substances, or waste within one-quarter mile of an existing or proposed school?
- d) Be located on a site which is included on a list of hazardous materials sites compiled pursuant to Government Code Section 65962.5 and, as a result, would it create a significant hazard to the public or the environment?
- e) For a project located within an airport land use plan or, where such a plan has not been adopted, within two miles of a public airport or public use airport, would the project result in a safety hazard for people residing or working in the project area?
- f) For a project within the vicinity of a private airstrip, would the project result in a safety hazard for people residing or working in the project area?
- g) Impair implementation of or physically interfere with an adopted emergency response plan or emergency evacuation plan?
- h) Expose people or structures to a significant risk of loss, injury or death involving wildland fires, including where wildlands are adjacent to urbanized areas or where residences are intermixed with wildlands?

SUBSTANTIATION:

- a-c **No Impact.** Although the subject properties are within ¹/₄ mile of Sitting Bull Elementary School and Sitting Bull Middle School, the change from one single family residential designation to another does not emit hazardous emissions or handle hazardous materials, the impacts associated with this issue. No impact is anticipated.
- d: *No Impact*. This project is not on a list of hazardous materials sites compiled pursuant to Government Code Section 65962.5. Therefore, this project would not create a significant hazard to the public or the environment. No impact is anticipated.

Incorp.

Town Council Staff Report Page 47

- e&f **No Impact**. The proposed project is not located within the land use plan of Apple Valley Airport, which is approximately six (6) miles to the northeast. Therefore, development of the proposed project will not result in an airport safety hazard to persons residing in the project area. There are no impacts associated with this issue.
- g: **No Impact**. The proposed General Plan Amendment and Zone Change will not impair implementation of or physically interfere with an adopted emergency response plan or emergency evacuation plan. Future development will generate an increase in the amount and volume of traffic on local and regional networks. At the time of development, the project will be required to design and construct applicable roadways to comply with applicable local, regional, State and/or Federal requirements related to emergency access and evacuation plans. Future construction activities, which may temporarily restrict vehicular traffic, will be required to implement measures to facilitate the passage of persons and vehicles through/around any required road closures. There are no impacts associated with this issue.
- h: **No Impact**. According to the Town's General Plan, the project site is not located within a Fire Hazard Area or within an area susceptible to wildfires. The vacant land adjacent to the project site has minimal vegetation. Future development of residential will not expose persons or property to increased wildland fire risks. As such, there are no impacts associated with this issue.

IX. HYDROLOGY AND WATER QUALITY

Would the project:

- a) Violate any water quality standards or waste discharge requirements?
- b) Substantially deplete groundwater supplies or interfere substantially with groundwater recharge such that there would be a net deficit in aquifer volume or a lowering of the local groundwater table level (e.g., the production rate of pre-existing nearby wells would drop to a level which would not support existing land uses or planned uses for which permits have been granted)?
- c) Substantially alter the existing drainage pattern of the site or area, including through the alteration of the course of a stream or river, in a manner which would result in substantial erosion or siltation onor off-site?
- d) Substantially alter the existing drainage pattern of the site or area, including through the alteration of the course of a stream or river, or substantially increase the rate or amount of surface runoff in a

Potentially Significant Impact	Less than Significant with Mitigation Incorp.	Less than Significant Impact	No Impact
			\boxtimes

manner which would result in flooding on- or off-site?

- e) Create or contribute runoff water which would exceed the capacity of existing or planned stormwater drainage systems or provide substantial additional sources of polluted runoff?
- f) Otherwise substantially degrade water quality?
- g) Place housing within a 100-year flood hazard area as mapped on a federal Flood Hazard Boundary or Flood Insurance Rate Map or other flood hazard delineation map?
- h) Place within a 100-year flood hazard area structures which would impede or redirect flood flows?
- i) Expose people or structures to a significant risk of loss, injury or death involving flooding, including flooding as a result of the failure of a levee or dam?

j) Inundation by seiche, tsunami, or mudflow?

SUBSTANTIATION:

a&f: **No Impact**. The proposed General Plan Amendment and Zone Change will not violate any water quality standards or waste discharge requirements because the Regional Water Quality Control Board (RWQCB), responsible for administering the Federal Clean Water Act on a regional level, has standards and waste discharge requirements for water quality that must be met during both construction of a project and ongoing at such time development is proposed.

 \square

 \boxtimes

 \square

 \boxtimes

 \square

 \square

 \boxtimes

 \boxtimes

Future on-site grading activities associated with the construction will require the movement of soils, which may result in a temporary increase in the amount of suspended solids in surface flows during a concurrent storm event and could increase the potential for erosion and off-site sedimentation. Also future residential uses may incrementally increase the potential for storm runoff. However, because no development is proposed at this time no impact related to this issue will occur.

- b: **No Impact**. The change in land use designations will not substantially deplete groundwater supplies or interfere substantially with groundwater recharge such that there would be a net deficit in aquifer volume or a lowering of the local groundwater table level because the project is served by an existing water purveyor that has indicated that there is currently sufficient capacity in the existing water system to serve the anticipated needs of the project.
- c-e: **No Impact**. The change in land use designations will not alter existing surface drainage on the site, therefore, no impacts related to this issue are anticipated to occur.
- g: **No Impact** The change in land use designations will not impair implementation of or physically interfere with an adopted emergency response plan or emergency evacuation plan because the project has adequate access from two or more points of access.

- h: **No Impact**. The site is not located within a 100-year or 500-year flood hazard area, as mapped on FIRM Panel No. 06071C6505H dated August 28, 2008. No impacts related to this issue are anticipated to occur.
- i-j: **No Impact.** No levees, dams or large bodies of water are located near the development site which would subject people to flooding. The site is also not located in a coastal area and, therefore, would not be subject to seiche, tsunami or mudflow.

X. LAND USE AND PLANNING

Would the project:

		Potentially Significant Impact	Less than Significant with Mitigation	Less than Significant Impact	No Impact
a)	Physically divide an established community?		Incorp.		\boxtimes
b)	Conflict with any applicable land use plan, policy, or regulation of an agency with jurisdiction over the project (including, but not limited to the general plan, specific plan, local coastal program, or zoning ordinance) adopted for the purpose of avoiding or				
	mitigating an environmental effect?			\boxtimes	
c)	Conflict with any applicable habitat conservation plan or natural community conservation plan?				\boxtimes

SUBSTANTIATION:

- a: **No Impact**. The proposed General Plan Amendment and Zone Change is for vacant land. The change will represent a continuation of the surrounding residential uses. Future development of the site will not divide an existing neighborhood, nor would it introduce a barrier between residential uses. Therefore, no impacts associated with physically dividing an established neighborhood are anticipated.
- b: Less than Significant Impact. The proposed project includes a General Plan Amendment and Zone Change. The existing General Plan designation and Zoning include R-E (1 dwelling unit per 2.5 net acres) the proposed project would change these designations to R-SF Residential Single Family (1 dwelling unit per 0.4 to 0.9 net acre). The General Plan states "Apple Valley is primarily a community of homes, many of which are located on lots of approximately one-half acre or more. Maintenance of a rural lifestyle is an important concept. In Apple Valley 'rural' means space—unscarred mountains and vistas of desert valleys, neighborhoods of large lots, an extensive equestrian trail system, and landscaping in keeping with the desert environment." The proposed land use designation maintains a half acre minimum and future development will be required to provide an equestrian lifeline trail along Deep Creek Road. For these reasons, the implementation of the proposed project would not conflict with any applicable land use plan, policy, or regulation; a less than significant impact to the second sec
- c: **No Impact.** The amendment would not conflict with the provisions of an adopted Habitat Conservation Plan, Natural Community Conservation Plan or other approved local, regional or state habitat conservation plan because no such plan has been adopted in the area of the project site; however, the Town has a draft Multi-Species Habitat Conservation Plan. At such time the site is to be developed, the project will be subject to the mitigation measures identified in the MHCP.

XI. MINERAL RESOURCES

Would the project:

	1 3	Potentially Significant Impact	Less than Significant with Mitigation Incorp.	Less than Significant Impact	No Impact
a)	Result in the loss of availability of a known mineral resource that would be of value to the region and the residents of the state?				\boxtimes
b)	Result in the loss of availability of a locally important mineral resource recovery site delineated on a local general plan, specific plan or other land use plan?				\boxtimes

SUBSTANTIATION (check __ if project is located within the Mineral Resource Zone Overlay):

a. **No Impact.** The site is not designated as a State Aggregate Resource Area according to the General Plan FEIR; therefore, there is no impact.

b. **No Impact.** The site is not designated by the General Plan as a Mineral Resource Zone; therefore, there is no impact.

XII. NOISE

Would the project result in:

		Potentially Significant Impact	Less than Significant with Mitigation Incorp.	Less than Significant Impact	No Impact
a)	Exposure of persons to or generation of noise levels in excess of standards established in the local general plan or noise ordinance, or applicable standards of other agencies?				\boxtimes
b)	Exposure of persons to or generation of excessive ground borne vibration or ground borne noise levels?			\boxtimes	
c)	A substantial permanent increase in ambient noise levels in the project vicinity above levels existing without the project?			\boxtimes	
d)	A substantial temporary or periodic increase in ambient noise levels in the project vicinity above levels existing without the project?			\boxtimes	
e)	For a project located within an airport land use plan or, where such a plan has not been adopted, within				

two miles of a public airport or public use airport,

Town Council Staff Report Page 51

> would the project expose people residing or working in the project area to excessive noise levels?

f) For a project within the vicinity of a private airstrip, would the project expose people residing or working in the project area to excessive noise levels? SUBSTANTIATION (check if the project is located in the Noise Hazard Overlay District _____ or is subject to severe noise levels according to the General Plan Noise Element _):

- a: **No Impact.** The proposed General Plan Amendment and Zone Change which, in and of itself does not directly involve the development on any of the parcels. The subject properties are currently vacant. However, future construction of the properties would potentially result increased noise levels but it is not anticipated to exceed any noise standards. As such, no impact is anticipated.
- b: Less than Significant. The proposed General Plan Amendment and Zone Change which, in and of itself does not directly involve the development on any of the parcels. The subject properties are currently vacant. Future construction of and operation of the uses associated with this type of project do not induce substantial groundborne vibrations. As such, a less than significant impact is anticipated.
- c&d Less than Significant Impact. The proposed General Plan Amendment and Zone Change which, in and of itself does not directly involve the development on any of the parcels. The subject properties are currently vacant. However, future residential development would potentially result in an increase in ambient noise levels in the project vicinity above levels existing without the project. It is not anticipated that the increase in density would be a substantial change; therefore, a less than significant impact is anticipated.
- e: **No Impact**. The proposed project is not located within two miles of a public airport and, therefore, does not have the potential to expose people to excessive noise levels from airport operations.
- f: **No impact.** The proposed project site is not located within the vicinity of a private airstrip; therefore, no impact associated with this issue will occur.

XIII. POPULATION AND HOUSING

Would the project result in:

		Potentially Significant Impact	Less than Significant with Mitigation Incorp.	Less than Significant Impact	No Impact
a)	Induce substantial population growth in an area, either directly (for example, by proposing new homes and businesses) or indirectly (for example, through extension of roads or other infrastructure)?			\boxtimes	
b) c)	Displace substantial numbers of existing housing, necessitating the construction of replacement housing elsewhere? Displace substantial numbers of people, necessitating the construction of replacement housing elsewhere?				\boxtimes

SUBSTANTIATION:

- a: Less than Significant Impact. The proposed General Plan Amendment and Zone Change which, in and of itself does not directly involve the development on any of the parcels. The proposed site is currently designated as residential use in the General Plan and will remain residential but with an increase in density. The proposed residential use meets the Town's goal of providing housing opportunities for the increasing population within the Town of Apple Valley. As the proposed project is consistent with and has been anticipated by the Town's General Plan, a less than significant growth inducing impact would be associated with future development of the site. Source: Apple Valley General Plan, Housing Element.
- b: **No Impact**. The proposed project site is currently vacant and, therefore, no displacement of housing or residents will occur. Replacement housing will not be required and no impact associated with this issue will occur.
- c: **No Impact.** The proposed project site is currently vacant. As such, the development of the project will not displace people or necessitate the need for construction of replacement housing elsewhere. No impact associated with this issue will occur.

		Potentially Significant Impact	Less than Significant with Mitigation Incorp.	Less than Significant Impact	No Impact
a)	Would the project result in substantial adverse physical impacts associated with the provision of new or physically altered governmental facilities, need for new or physically altered governmental facilities, the construction of which could cause significant environmental impacts, in order to maintain acceptable service ratios, response times or other performance objectives for any of the public services:				
	Fire protection?			\boxtimes	
	Police protection?			\boxtimes	
	Schools?			\boxtimes	
	Parks?			\boxtimes	
	Other public facilities?			\boxtimes	

SUBSTANTIATION:

FIRE - Less than Significant Impact. Fire service would be provided to the project uses by the Apple Valley Fire Protection District. The proposed project is located approximately one mile from Station No. 334 located at 12143 Kiowa Road and Station No. 336 located at 19235 Yucca Loma Road. Due to the close proximity of the two fire stations, the proposed project would be within the standard respond times of the Fire Protection District. However, as with any new development, the proposed project would increase the

need for fire protection services within the Town. As a result, the applicant for the construction of the new dwelling units will be required to pay applicable fire service fees prior to occupancy. The payment of fees satisfies the requirements for development impacts on fire services. With the payment of the fire service fee, potential impacts related to the provision of fire services would be reduced to a less than significant level. **Source:** Town of Apple Valley, General Plan EIR

POLICE - Less than Significant Impact. The Town of Apple Valley provides law enforcement services for residents and businesses within the Town limits via a contract with the San Bernardino County Sheriff's Department. The Sheriff station is located at 14931 Dale Evans Parkway. Based on the projected increase in population at build-out, the project does not warrant an additional police officer. Further, the construction of new dwelling units will be required to pay applicable law enforcement facilities fee prior to occupancy. The payment of fees satisfies the requirements for development impacts on police facilities. With the payment of the law enforcement facilities fees, potential impacts related to the provision of police services would be reduced to a less than significant level.

Source: Town of Apple Valley, General Plan EIR and Building & Safety Impact Fee Schedule

SCHOOL- Less than Significant Impact. Future development would be served by the Apple Valley Unified School District. The nearest schools to the proposed project include Sitting Bull Elementary School, Sitting Bull Middle School, Apple Valley High School, and Willow Park High School. Section 65995 of the California Government Code requires developers to pay a onetime fee for school capital acquisitions and improvements and prohibits state or local agencies from imposing school impact mitigation fees, dedications or other requirements in excess of those provided in the statute. As such, the applicant for the construction of the new dwelling units proposed in the project is required to pay applicable school fees prior to occupancy. The payment of fees satisfies the requirements for the development impacts on school facilities. With the payment of school impact mitigation fees, potential impacts related to the provision of schools would be reduced to a less than significant level.

Source: Town of Apple Valley, General Plan EIR

PARKS - Less than Significant Impact. The increase in population would result in increased demand for and use of local parks. In order to reduce potential impacts upon local parks, the proposed project shall be required to dedicate land to pay its fair share for park facilities.

PUBLIC FACILITIES - Less than Significant Impact. The development will not exceed demand that has been previously considered in The Town's General Plan EIR.

XV. RECREATION

		Potentially Significant Impact	Less than Significant with Mitigation Incorp.	Less than Significant Impact	No Impact
a)	Would the project increase the use of existing neighborhood and regional parks or other recreational facilities such that substantial physical deterioration of the facility would occur or be accelerated?			\boxtimes	
b)	Does the project include recreational facilities or require the construction or expansion of recreational facilities which might have an adverse physical effect on the environment?			\boxtimes	

8-53

SUBSTANTIATION:

a-b: Less than Significant Impact. The population increase may result in impacts to local and regional park facilities. The project site is located in close proximity to many regional recreational opportunities. There are a total of thirteen (13) local parks within the Town's jurisdictional boundaries. Four (4) of the thirteen (13) parks are located approximately 3 miles from the project site and would be used by residents within the proposed project. These parks include Norm Schmidt Memorial Park, Mendel Park, Yucca Loma Park, and the James A. Woody Community Center. A 10 acre park is proposed east of Sitting Bull Elementary, just north of the subject property.

XVI. TRANSPORTATION/TRAFFIC

Would the project result in:

		Potentially Significant Impact	Less than Significant with Mitigation Incorp.	Less than Significant Impact	No Impact
a)	Conflict with an applicable plan, ordinance or policy establishing measure of effectiveness for the performance of the circulation system, taking into account all modes of transportation including mass transit and non-motorized travel and relevant components of the circulation system including but not limited to intersection, streets, highways and freeways, pedestrian and bicycle paths and mass transit?				
b)	Conflict with an applicable congestion management program, including, but not limited to level of service standards and travel demand measures, or other standards established by the county congestion management agency for designated roads or highways?				
c)	Result in a change in air traffic patterns, including either an increase in traffic levels or a change in location that result in substantial safety risks?				\boxtimes
d)	Substantially increase hazards due to a design feature (e.g., sharp curves or dangerous intersections) or incompatible uses (e.g., farm equipment)?				\boxtimes
e)	Result in inadequate emergency access?				\boxtimes
f)	Result in inadequate parking capacity?	\square			
g)	Conflict with adopted policies, plans, or programs regarding public transit, bicycle or pedestrian facilities, or otherwise decrease the performance or safety of such facilities?				\boxtimes

SUBSTANTIATION:

- 4. a&b. Less Than Significant. The proposed General Plan Amendment and Zone Change, in and of itself will not create traffic related impacts. A tract map was not submitted with the GPA and ZC. However, due to the increase in density from one acre minimum to half acre minimum a traffic analysis was prepared by LSA, dated March 25, 2014. The study identified a trip generation of 3,189 daily trips with 251 trips occurring during a.m. peak and 335 trips occurring during the p.m.. After accounting for the current land use trip generation, the proposed GPA/ZC would generate 19,14 net new daily trips with 151 net new trips occurring during the a.m. peak hour and 201 net new trips occurring during peak p.m. hour. The study indicates that the circulation impacts associated with the GPA/ZC for the 134 acres are normal and are reduced to a level of less than significance with the recommended street improvements. At such time a tract map is submitted for the subject area, Conditions of Approval will be required for the necessary street improvements consistent with the Circulation Element of the General Plan.
- 5. c. **No Impact.** The proposed project is not located within the vicinity of an airport nor will it increase the traffic levels near an airport. Therefore, it will not cause any changes to air traffic patterns. No impacts are anticipated.
- 6.
- 7. d-g. **No Impact.** The proposed General Plan Amendment and Zone Change, in and of itself will not create traffic related impacts. No construction is proposed at this time; however, at such time development is proposed traffic related impacts related to land division and development will be evaluated.

XVII. UTILITIES AND SERVICE SYSTEMS

Would the project:

- a) Exceed wastewater treatment requirements of the applicable Regional Water Quality Control Board?
- b) Require or result in the construction of new water or wastewater treatment facilities or expansion of existing facilities, the construction of which could cause significant environmental effects?
- c) Require or result in the construction of new storm water drainage facilities or expansion of existing facilities, the construction of which could cause significant environmental effects?
- d) Have sufficient water supplies available to serve the project from existing entitlements and resources, or are new or expanded entitlements needed?
- e) Result in a determination by the wastewater treatment provider which serves or may serve the project that it has adequate capacity to serve the project's projected demand in addition to the provider's existing commitments?
- f) Be served by a landfill(s) with sufficient permitted capacity to accommodate the project's solid waste disposal needs?

	8	-55
	\boxtimes	
	\boxtimes	

g) Comply with federal, state, and local statutes and regulations related to solid waste?

SUBSTANTIATION:

8. a-g. Less than Significant Impact. The proposed General Plan Amendment and Zone Change which, in and of itself does not directly involve the development on any of the parcels. The proposed site is currently designated as residential use in the General Plan and will remain residential but with an increase in density. The increase is not so substantial beyond what was anticipated within the General Plan that a significant impact on utilities would result. Future development will be required to provide the necessary utilities to adequately serve the site.

XVIII. MANDATORY FINDINGS OF SIGNIFICANCE

Potentially Less than Less than No Significant Significant Significant Impact Impact Impact with Mitigation Incorp. a) Does the project have the potential to degrade the quality of the environment, substantially reduce the habitat of a fish or wildlife species, cause a fish or wildlife population to drop below self-sustaining levels, threaten to eliminate a plant or animal community, reduce the number or restrict the range of a rare or endangered plant or animal or eliminate important examples of the major periods of California history or prehistory? \square b) The project has the potential to achieve short-term environmental goals to the disadvantage of longterm environmental goals. \square c) Does the project have impacts that are individually limited. but cumulatively considerable? ("Cumulatively considerable" means that the incremental effects of a project are considerable when viewed in connection with the effects of past projects, the effects of other current projects, and the effects of probable future projects)? \boxtimes d) Does the project have environmental effects which will cause Substantial adverse effects on human beings, either directly or indirectly? \square

SUBSTANTIATION:

a. Less than Significant Impact. The site is not within designated or proposed critical habitat for threatened or endangered species. Additionally, according to the Biological Assessment the proposed project site does not contain any wetlands, or riparian habitat and does contain suitable habitat for nesting birds, raptors, and burrowing owls; however, at such time as development is proposed an updated assessment will be required.

- b. Less than Significant Impact. The environmental impacts associated with this General Plan Amendment and Zone Change did not identify any impacts that had the potential to achieve short-term environmental goals to the disadvantage of long-term environmental goals.
- c. Less than Significant Impact. The environmental impacts associated with this General Plan Amendment and Zone Change did not identify any impacts that had the potential to have impacts that are individually limited, but cumulatively considerable. Therefore, less than significant impact is anticipated.
- d. Less than Significant Impact. As identified in this Initial Study, it was determined that the significance of environmental impacts associated with the General Plan Amendment and Zone Change were either no impact or less than significant impact. For all topics, the General Plan Amendment and Zone Change would not produce a significant effect on the environment. Correspondingly, the General Plan Amendment and Zone Change would not produce an adverse impact on humans for those environmental topics that relate directly to humans such as aesthetics, air quality, cultural resources, geology and soils, hazards and hazardous material, hydrology and water quality, land use and planning, noise, population and housing, public services, recreation, and utilities and service systems.
