

TOWN OF APPLE VALLEY TOWN COUNCIL STAFF REPORT

To: Honorable Mayor and Town Council **Date:** December 12, 2017
From: Nikki Salas, Assistant Town Manager **Item No:** 7
Subject: DECLARE SURPLUS AND AUTHORIZE DISPOSAL OF COMPUTER EQUIPMENT

T.M. Approval: _____ **Budgeted Item:** Yes No N/A

RECOMMENDED ACTION:

Approve and declare the list of computer equipment as surplus, authorizing Information Systems to dispose of said items through a variety of methods including resale agent, charitable donations, and recycling through Town of Apple Valley Household Hazardous Waste Program.

SUMMARY:

Through a process of system's upgrades and normal hardware attrition, the Town has a collection of old equipment that Information Systems seeks to dispose of as appropriate. It is opinion of the Information Systems staff that these items are no longer of value to the Town of Apple Valley. However, some items may have a resale value. For those items with a resale value, the town staff will work with vendors to sell equipment. However, for those items deemed to have no resale value, they may have a value to charitable organizations in the community or recyclable value. Staff will work with local charitable organizations to donate items deemed to have no resale value. For any remaining items, town staff will work with the Household Hazardous Waste Division to recycle old and broken equipment.

BACKGROUND:

The Information Systems Department systematically upgraded the Town's computer equipment over a last five years beginning August 2012. Throughout the upgrade process, the old equipment's condition was surveyed and computer hard drive's were sterilized by means of degaussing equipment. The Information Systems Department has

been storing the old equipment since the last Council authorized disposal in 2012 and is now seeking the authority to dispose of this collection.

FISCAL IMPACT:

Disposal of these items has no direct fiscal impact. Any funds gathered in recycling of all of the items can be used to further offset the operational expenses of the IS department.
