## **RECOMMENDED ACTION:**

- A. That the Town Council receive and file the Fiscal Year 2018-2019 Mid-Year Budget Review Report.
- B. Approve Budget Amendment Number 19-27 incorporating revenue and expenditure changes and carry forwards as proposed herein.

### SUMMARY:

Discussed herein for your review and consideration is the Fiscal Year 2018-2019 Mid-Year Budget Review Report. This report provides an update on the Town's progress towards implementation of its one-year financial plan, its adopted operating and capital improvement budget, as of December 31, 2018, the fiscal mid-year for Fiscal Year 2018-2019. Specific attention is focused on the Town's General Fund.

The primary purpose of this report is to provide an update on the status of the Town's budget highlighting any changes or issues that may need to be addressed since the budget's adoption on June 26, 2018. To that end, included within this report are certain proposed budget adjustments to various revenue sources and categories of expense due to financial events occurring subsequent to adoption of the budget which are discussed herein.

The Mid-Year Budget Review report also briefly highlights any changes in economic conditions that may have impacted the Town's budget during the current fiscal year and briefly discusses challenges the Town may need to address during preparation of the proposed Fiscal Year 2018-2019 Operating and Capital Improvement Budget.

## BACKGROUND:

The Town Council adopted the FY 2018-2019 Operating and Capital Improvement budget on June 26, 2018. The Adopted Operating and Capital Improvement budget is the Town's one-year spending plan for FY 2018-2019. It serves as a planning guide for the ensuing fiscal year and demonstrates progress towards implementation of the Town Council's long-term goals as outlined in the Vision 2020 plan. The adopted budget also demonstrates how established short-term goals and objectives will be implemented over the next year. It demonstrates how available resources are matched against the Town's service priorities to provide essential services to the community. It underscores the Town's continued commitment to provide more efficient services to residents and maintains adequate resources for unforeseen emergencies.

After adoption, financial events occur throughout the course of the year that impact upon the budget and the implementation of spending priorities outlined therein. These events necessitate adjusting the budget projections from time to time during the course of the fiscal year to keep the spending plan up-to-date based on current financial conditions.

Staff is proceeding to implement a "best practices" approach to the budget development process. In doing so, staff modified the mid-year budget process as part of overall efforts to continually improve the quality of information provided to Council. This process is part of an on-going effort and additional process improvements will be evident in the upcoming budget development process for Fiscal Year 2019-2020.

There are several estimated revenue and appropriation adjustments proposed by staff based upon actual experience and/or historical data contained herein.

In total, adjustments to the estimated revenue projections in the FY 2018-2019 General Fund adopted budget amount to an increase of \$1,463,310. On an "all funds" basis, total revenues are proposed to increase by an additional \$1,210,338 and total expenditures are proposed to increase by \$1,809,368. These mid-year adjustments to the FY 2018-2019 General Fund adopted budget will be considered by Council at its March 26 Town Council meeting and are summarized in Budget Adjustment number 19-27 and Exhibit A attached hereto.

Staff will be making a presentation summarizing the proposed changes to the budget outlined in the attached exhibit and highlighting financial events occurring at the State and local level since adoption of the budget at the March 26, 2019, Council meeting.

Due to external factors affecting the Federal, State, and local economy, it was felt that a brief review of the Town's revenue and expenditure structure may be helpful in understanding some of the challenges ahead in the coming year's budget cycle. This review will focus primarily on the Town's key revenue sources and expenditure categories considered of general interest and also primarily responsible for these challenges.

From time to time, the Town Council may approve additional appropriations for various programs and services throughout the course of the fiscal year. Some of the additional appropriations that may be approved throughout the year include adjustments to project appropriations due to increasing the scope of the project or for those programs that receive grant funding after adoption of the budget. The Town, as a matter of fiscal conservancy, does not typically budget grant revenues until such time as the grant award has been received and receipt of the grant funding is eminent.

Integration of the budget into the Town's accounting system and internal control processes is essential in demonstrating the strength of the Town's financial policies and

management practices. This process is essential, for example, during a financial management assessment performed by credit rating agencies, such as Standard & Poor's or Moody's Investor Services. To that end, it is noteworthy that the Town's Standard & Poor's debt rating was recently re-confirmed as an "A" rating.

The budgetary integration process is demonstrated through adoption of reasonable and comprehensive budget assumptions with budget reviews and revisions performed at interim periods throughout the course of the fiscal year.

The focus of the mid-year budget review presentation is primarily the Town's General Operating Fund revenues and expenditures. The majority of the Town's operating expenditures are accounted for within this fund. Other special revenue fund budgets, such as the Community Development Block Grant (CDBG) or Home Funds, do not usually require adjustments at mid-year due to the specific nature of the resource allocations and program requirements. When revenues for these special revenue funds are not fully expended during the year, balances are carried forward for re-appropriation in the subsequent years' budget process. Adjustments to other funds are submitted to Council on an "as needed" basis periodically throughout the year.

The total adopted General Fund budget for FY 2018-2019 was \$31.5 million. The table below is a summary of the total resources and resource requirements for the adopted FY 2018-2019 General Fund budget:

All Town departments have provided feedback to the Finance department regarding the status of their current year's expenditures and budgetary performance as projected through the end of the fiscal year. A comparison of the adopted budget (appropriations) for the 2018-19 fiscal year to actual performance by department for the past three (3) fiscal years is included in Exhibit B.

Based on staff's analysis of the current year's operating revenues and expenditures and, based upon information and input provided by all departments, staff recommends the following adjustments to the FY 2018-2019 budget highlighted below and as outlined in the attached Budget Adjustment Number 19-27 (Only significant General Fund changes have been highlighted):

### Revenues:

**Letter of Credit:** On October 9, 2018, the Town authorized the execution and delivery of a Revolving Credit Agreement Relating to a Revolving Line of Credit in the principal amount of \$10,000,000. Of this amount the Town withdrew and deposit into its general

bank account \$3,000,000 to support the Town's fiscal obligations. The proceeds of the letter of credit have increased the General Fund revenue total by \$3,000,000.

**Engineering Permit:** During the preparation of the 2018-2019 revenue budget for Engineering department, there was an expectation to meet the moderate projected revenue budget of \$98,300. During the course of the 2018-2019 fiscal year, a permit was obtained by the Big Lots Corporation that generated additional revenue of \$295,750, exceeded the budget by 350%. As a result, a proposed revenue increase in the General Fund was requested from \$98,300 to \$453,000.

**Franchise Fees:** The franchise fee agreement with the Town's Waste Management service provider was reviewed during the 2018-2019 fiscal year. It has been determined that the franchise fees collected have been transferred into the General Fund using a calculation based on incorrect rate categories. The calculations have been corrected and in accordance to the new calculations the franchise fee transfer has been decreased by \$1,006,200. This correction only involves the internal method of allocating franchise fees and does not impact public rates for Waste Management services.

## **Expenditures:**

**Letter of Credit:** The letter of credit, as detailed previously, required one-time costs at its inception. A \$180,000 expenditure to reflect these costs will be amended at the approval of mid-year. Monthly interest payments are also a requirement for the letter or credit. An expenditure line in the amount of \$90,000 will be added to the General Fund expenditures at mid-year as well as the subsequent years through the completion of the life of the letter of credit.

### Other Budgetary Issues:

**Sales Tax:** In the 2019-2020 budget year, there is an expectation of a decline of approximately 2.4% in the amount of sales tax revenue estimates. This could mean a decrease in General Fund revenue in the amount of \$63,520.

Including all adjustments to revenues and appropriations, the General Fund budget for FY 2018-2019 is estimated to be approximately \$31.8 million. The following table is a summary of the total resources and resource requirements for the adopted FY 2018-2019 General Fund budget including the adjustments as proposed:

## TABLE 2

## **SUMMARY**

The FY 2018-2019 budget was adopted with no planned appropriation from General Fund available fund balance. Following adoption of the budget, Council approved additional appropriations for various programs, services, and carryovers from FY 2017-2018. As of December 31, 2018, net revenue adjustments increased total available resources in the General Fund by \$1,463,310. Additionally, net appropriation increases in the General Fund amounted to \$317,000. These net adjustments increased the fund balance in the General Fund by \$1,166,577 as of mid-year. These proposed revenue and expenditure adjustments are outlined in Exhibit A (Attachment 2).

## ALTERNATIVES CONSIDERED

No alternatives were considered.

## FISCAL REVIEW

The attached Exhibit A summarizes the adopted adjustments in revenue estimates and appropriations (expenditures) to the current year's adopted operating and capital improvement budget reviewed herein. The attached budget adjustment, 19-27, summarizes the adopted increases in revenue estimates and appropriation adjustments.

Exhibit B summarizes the changes in revenue estimates and budgetary performance for all departments and all funds reflective of all budget amendments previously approved by Council through December 31, 2018.

The net result of these changes in revenue estimates and appropriation adjustments increased the General Fund fund balance by \$1,166,577 of the FY 2018-2019 mid-year budget report.

## CONCLUSION

The attached budget adjustment (BA# 19-27) and carry forwards proposed to Council for consideration at its March 26, 2019 Council Meeting summarize proposed changes in the adopted FY 2018-2019 Operating Budget. Staff is committed to ensuring that the Town continues its conservative fiscal practices; adopts sound, responsible, financial plans; and maintains its high-level of service delivery to the community in the most cost-effective and efficient manner possible.
