### SUMMARY:

On May 1, 2019 the Planning Commission and the Town Council held a joint workshop to discuss issues related to the current regulations of the Development Code. Most of these issues involved non-residential development, with a few exceptions. At that meeting direction was given to staff to initiate Development Code Amendments for certain items and also bring back some issues to the Council for further discussion.

Attached is an updated schedule that identifies the order that these amendments and discussion items will be brought forward to the Planning Commission and Town Council for consideration. This schedule will be updated and placed on the Town Council's agenda monthly.

Each Amendment requires a recommendation from the Planning Commission and Adoption of first and second reading by Council. Discussion items would require a step of initiating an amendment to then forward to the Planning Commission for review and recommendation, followed by the Council adoption. Each of these items can take 4 to 6 months to process individually.

Staff determined the priority of the items through the discussion that took place at the workshop. The schedule attached is fluid and can be modified by staff or the Council depending on staffing and Council priorities.
