RECOMMENDED ACTION

That the Town Council:

- A. Approve FY 2020/2021 through 2024/2025 Capital Project Needs Analysis
- B. Adopt Resolution No 2019-27, Adopting the Measure I Five Year Capital Project Needs Analysis

SUMMARY:

The Victor Valley Major Local Highways (MLH) Program requires that a master list of projects eligible for funding shall be maintained and periodically updated. The list of eligible projects must be approved by the SBCTA Board, based on a recommendation of the Victor Valley subarea representatives and the Mountain/Desert Committee. The current list of approved projects was included in the 2019 update to the 10-Year Delivery Plan. Eligible project expenditures in the Victor Valley MLH Program are also subject to an equitable distribution among the five member jurisdictions.

BACKGROUND

The Measure I Strategic Plan requires local jurisdictions to annually adopt a five-year Capital Project Needs Analysis (CPNA). This is a five-year plan of capital project needs for the Victor Valley Major Local Highways Program.

The CPNA includes estimates of project costs to be incurred by funding type, fiscal year, and phase for the five-year period following the beginning of the subsequent fiscal year. It also demonstrates the availability of development mitigation fair share funds for the projects as assigned by the SBCTA Nexus Study.

SBCTA staff will use the CPNA submittals to develop a cash-flow analysis. The cash-flow analysis informs SBCTA staff of the availability of Program funds for loans and advances or of the need to bond for particular programs. Future revenue assumptions used in the CPNA, however, are not a guarantee of fund availability.

FISCAL IMPACT

The attached Capital Project Needs Analysis shows proposed expenditures for fiscal years 2020/2021 through 2024/2025.
