

Town Council Agenda Report

Date: April 28, 2020 Item No. 7

To: Honorable Mayor and Town Council

Subject: APPROVAL OF RESOLUTION AMENDING APPLE VALLEY CHOICE ENERGY CUSTOMER POWER GENERATION RATE SCHEDULE

From: Douglas Robertson, Town Manager

Submitted by: Sydnie Harris, Director of Finance
Finance Department

Budgeted Item: Yes No N/A

RECOMMENDED ACTION

Adopt Resolution No. 2020-14, amending Resolution No. 2019-18 setting customer power generation rates for Apple Valley Choice Energy.

BACKGROUND

For ease in customer understanding, and cost comparisons, Apple Valley Choice Energy's ("AVCE") rates are developed to mirror those of Southern California Edison ("SCE") while providing a savings for the energy generation portion of a customer's electric bill. SCE implemented a rate change effective April 13, 2020 and the approval of the proposed resolution brings AVCE's rates in line with SCE's and ensures customers maintain a 3% discount, while providing funding for future power purchases, maintaining reserves, and ensuring long-term financial stability

ANALYSIS

Apple Valley Choice Energy ("AVCE") has been serving customers since 2017. An essential part of AVCE's operation is rate setting. A fundamental requirement in setting rates is to ensure sufficient revenue to cover AVCE's operating expenses and provide for reserves. In addition to meeting these requirements, AVCE's proposed rate schedule provides savings to AVCE customers as compared to current SCE rates. By offering a discount to its customers, AVCE has saved Apple Valley residents and businesses an estimated \$2,500,000 for the period January 2018 – December 2019.

On March 13, 2020, SCE released final 2020 generation rate and Power Charge Indifference Adjustment (PCIA or Exit Fees) that were effective April 13, 2020.

Generation rates remained relatively flat, however, exit fees increased 0.5 cents per kWh. To maintain the 3% discount off SCE’s generation rates, the proposed rate schedule reflects an average decrease in AVCE rates of 11%.

AVCE sets its rates to offer customers a 3% discount off SCE’s rates, and to cover the expenses related to power procurement and administration. Staff recommends adjusting AVCE rates to ensure sufficient revenue is collected to cover costs, maintain healthy reserves, while continuing to offer customers a 3% rate savings

FISCAL IMPACT

YOUR Choice NEM - NET ENERGY METERING OPTION

With the YourChoice Program, you'll receive an energy credit for the power your system provides to the grid. At the close of each month, we'll tally the amount of grid energy you've consumed and contributed. If what you've contributed is more than what you've consumed, we'll issue a credit. If you've used more than you've contributed, you'll be debited. Each April, on the true up date, the kilowatt usage is evaluated, and if your energy production exceeds your energy consumption, a rebate is issued based on \$.06 per kWh. If we owe you more than \$100 we'll issue you a check. Otherwise, the credit balance will roll over to next year. Simple as that.

YOUR Choice NEM - NET ENERGY METERING OPTION

With the Net Energy Metering program, you receive an energy credit for the power your system provides to the grid. At the close of each month, we'll tally the amount of grid energy you've consumed and contributed. If what you've contributed is more than what you've consumed, we'll issue a credit. If you've used more than you've contributed, you'll be debited. Each April, on the true up date, the kilowatt usage is evaluated, and if your energy production exceeds your energy consumption, a rebate is issued based on \$.06 per kWh. If we owe you more than \$100 we'll issue you a check. Otherwise, the credit balance will roll over to next year.
