Engineering Department

Budgeted Item: Yes No N/A

RECOMMENDED ACTION

- A. Adopt Resolution No. 2020-18, a Resolution of the Town Council of the Town of Apple Valley Directing the Filing of the Annual Report for the Town of Apple Valley Landscaping and Lighting Assessment District.
- B. Receive and approve the engineer's report as filed, or as amended.
- C. Adopt Resolution No. 2020-19, a Resolution of the Town Council of the Town of Apple Valley Declaring its Intention to Order Improvements and to Levy and Collect Assessments for Fiscal Year 2020-2021.

ANALYSIS

The Landscaping and Lighting Act of 1972 permits the installation, maintenance and servicing of landscaping and lighting through annual special assessments on real property benefiting from the improvement. Currently, the Apple Valley Lighting and Landscaping District includes 20 locations. Because several of the newer locations have substantial reserves, it is recommended to reduce the annual assessment as indicated in the report.

For levying annual assessments, it is necessary that the Town Council adopt the initial resolution describing improvements and ordering the engineer to file a report. (Note: The Engineer's Report has already been filed and is made a part of this agenda item for the

Council's review and approval). Second, the Town Council should approve the report as filed, or the Council may modify and then approve the report, and; third, adopt a resolution of intention to levy assessments and set a date for a public hearing.

The resolution of intention declares to the affected property owners that the Town intends to levy and collect assessments within the district for next fiscal year. The resolution also gives notice of the time and place for the public hearing of the proposed assessment.

The annual assessments for each annexed territory of the Assessment District are indicated in Part B of the Engineer's Report. There is no increase in the assessments for this fiscal year for all locations. The recommended procedures comply with all requirements of Proposition 218.

FISCAL IMPACT

The attached report summarizes the revenues and expenditures of the Assessment District, the estimate of cost and the proposed cost per lot per tract. The costs are borne by the property owners within each identified tract. There is no direct budgetary impact to the Town.
