

I feel like I have been under attack in my home for the last couple of weeks. Every single night the fireworks start up. From 7:30 PM to as late as 3:30 AM, yes 3:30 AM. They go seven days a week with no let-up. So much for "A better way of life". These are not firecrackers, but full on fireworks. Our dog is traumatized by these constant explosions and a good nights sleep is impossible.

Fireworks are illegal in the Town, yet night after night they are set off and nothing is done. The town says the Fire Dept is responsible, Fire dept says they are short staffed. We need people working nights to cite, arrest if necessary and fine the offenders. These idiots are controlling us and nothing is being done.

As we come into the July 4th holiday it is going to get worse. The Town and the Fire District need to come together and make a strong statement now against these illegal fireworks. Please understand, there are a lot of people really upset over this and want action.
