

1. The request that the Town of Apple Valley urgently and immediately make a public declaration that fireworks are unlawful in the town and post it on their social media. That you please do everything within your power to diminish the nightly war zone type of assault with fireworks from sundown to about 3 AM.

2. A request to be considered in the planning of the 9/11 Anniversary event. I would like to arrange to hold a stair climb on a hill like they do in San Diego (outdoors). It will bring business to our community and help observe the anniversary of the attacks on our nation while hopefully honoring local heroes. The stair climb could be held on Bell Mountain.

We are all at home and there has never been a greater time for the need for peace. I've spent over 3 weeks restless waking up continuously with the hard booms of commercial grade exhibition fire works. The terrifying part is that at times I've heard debris fall on my roof after the explosions.
