

It is hard to understand how the many complaints made by so many people to the police department regarding the incessant amount of fireworks going on Apple Valley are seemingly ignored.

It is remarkably disrespectful to the citizens of Apple Valley.

Fireworks are illegal for a reason. They are dangerous to the person using them and they affect the health of those forced to endure them.

They are impossible to ignore by infants, working people who need uninterrupted sleep, those suffering from PTSD as animals - both pets and wild.

We ask that - you as representatives elected by us - insist this be a priority for the AVPD to respond to those affected by this ...and determine how to stop it.

Please discuss this at the next council meeting.

Respectfully,

Eda Godel Hallinan
