### BACKGROUND

As part of the Town's annual paving priorities, staff evaluated local roadways and determined priority areas in need of maintenance. To prepare for the Town's larger resurfacing project in the spring of 2021, staff identified segments within the project area with large gap locations. The Project generally consists of providing necessary labor, equipment and materials for the removal of damaged asphalt in these areas and filling with new compacted asphalt. The street segments will then be resurfaced as part of the Resurfacing 2020-01 project in the spring of 2021.

### ANALYSIS

On September 30, 2020, staff forwarded a Request for Proposals (RFP) to qualified contractors with a submission deadline of October 13, 2020. Staff received three (3) proposals, reviewed them for completeness and the contractor's understanding of the scope of work.
