### SUMMARY:

On May 1, 2019 the Planning Commission and the Town Council held a joint workshop to discuss issues related to the current regulations of the Development Code. Most of these issues involved non-residential development, with a few exceptions. At that meeting direction was given to staff to initiate Development Code Amendments for certain items and also bring back some issues to the Council for further discussion. Initially over 36 items were identified at the May 1, 2019 meeting and an additional 26 items have been added to this list by the Town Council and staff since this initial joint meeting. Staff has completed 50 of the 62 items identified. Attached is an updated schedule that identifies these amendments and discussion items. The items that have been highlighted have been completed. The table shows the tentative schedule that these items will be brought forward to the Planning Commission and Town Council for consideration.

The Ad-Hoc Committee meeting for the multi-family development regulations took place on October 8, 2020. The Ad-Hoc Committee has completed their recommendation and a discussion of these recommended changes has been prepared for Council consideration of initiating a Development Code Amendment on November 10, 2020 agenda.

Each Amendment requires a recommendation from the Planning Commission and Adoption of first and second reading by Council. Discussion items would require a step of initiating an amendment to then forward to the Planning Commission for review and

recommendation, followed by the Council adoption. Each of these items can take 4 to 6 months to process individually.

Staff determined the priority of the items through the discussion that took place at the workshop. The schedule attached is fluid and can be modified by staff or the Council depending on staffing and Council priorities.
