INDEPENDENT ACCOUNTANT'S COMPILATION REPORT

To the Board of Directors
Apple Valley Community Resource Foundation
Apple Valley, California

Management is responsible for the accompanying financial statements of the governmental activities and the general fund of the Apple Valley Community Resource Foundation, California (the "Foundation") (a nonprofit organization), as of and for the year ended June 30, 2019, and the related notes to the financial statements which collectively comprise the Foundation's basic financial statements in accordance with accounting principles generally accepted in the United States of America. We have performed a compilation engagement in accordance with Statements on Standards for Accounting and Review Services promulgated by the Accounting and Review Services Committee of the AICPA. We did not audit or review the financial statements nor were we required to perform any procedures to verify the accuracy or completeness of the information provided by management. Accordingly, we do not express an opinion, a conclusion, nor provide any form of assurance on these financial statements.

The accompanying supplementary information, as listed in the table of contents, is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information is the responsibility of management. The supplementary information was not subject to our compilation engagement. We do not express an opinion, a conclusion, nor provide any assurance on such information.

Change in net position of governmental activities \$ (60,013)

APPLE VALLEY COMMUNITY RESOURCE FOUNDATION
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2019

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The basic financial statements of the Apple Valley Community Resource Foundation (Foundation) have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to governmental agencies. The Governmental Accounting Standards Board (GASB) is the accepted standard setting body for establishing governmental accounting and financial reporting principles. The more significant of the Foundation's accounting policies are described below.

A. Nature of Business and Reporting Entity

The Foundation (a California nonprofit corporation) was created on August 14, 2001 by the Town of Apple Valley, to lessen the burdens of government and to promote and support cultural, recreational, and human services needs in the Town of Apple Valley (Town). The Town Council appoints the Foundation's Board Members and management positions. The Foundation is primarily supported by donations from the general public. It is exempt from federal income taxes under Section 501(C)(3) of the Internal Revenue Code. It is also exempt from State income taxes, subject to compliance with applicable laws and regulations.

The Foundation is a component unit of the Town and, accordingly, the financial statements of the Foundation are included in the financial statements of the Town. The Foundation is an integral part of the reporting entity of the Town. The funds of the Foundation have been blended within the financial statements of the Town because the Town Council is the governing board of the Foundation and exercises control over the operations of the Foundation. Only the funds of the Foundation are included herein; therefore, these financial statements do not purport to represent the financial position or results of operations of the Town. The Foundation has the same fiscal year as the Town. The Comprehensive Annual Financial Report of the Town can be obtained from the Finance Department of the Town.

B. Basis of Accounting and Measurement Focus

The accounts of the Foundation are organized on the basis of funds, each of which is considered a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets, liabilities, fund balance, revenues, and expenditures, as appropriate. Governmental resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled. The balances and activity of the Foundation are recorded in the General Fund. The General Fund is used to account for all financial resources except those required to be accounted for in another fund. Since the Foundation is not required to account for activity in another fund, all activity of the Foundation is recorded in the General Fund.

Government-wide Financial Statements

The Foundation's government-wide financial statements include a Statement of Net Position and a Statement of Activities. These financial statements present summaries of activities for the Foundation.

The Government-wide financial statements (i.e., the Statement of Net Position and the Statement of Activities) report information on all of the nonfiduciary activities of the primary government and its component units. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support.

APPLE VALLEY COMMUNITY RESOURCE FOUNDATION
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2019

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONT'D

B. Basis of Accounting and Measurement Focus (Cont'd)

The Statement of Activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are expenses that are clearly identifiable with a specific program, project, function or segment. Program revenues of the Foundation include: 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

The government-wide financial statements are presented on an economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows.

Governmental Fund Financial Statements

Governmental fund financial statements include a Balance Sheet and a Statement of Revenues, Expenditures and Changes in Fund Balance for all governmental funds. All governmental funds are accounted for on a spending or current financial resources measurement focus and the modified accrual basis of accounting. Accordingly, only current assets and current liabilities are included on the balance sheets. The Statement of Revenues, Expenditures and Changes in Fund Balance presents increases (revenues and other financing sources) and decreases (expenditures and other financing uses) in net current assets.

Under the modified accrual basis of accounting, revenues are recognized in the accounting period in which they become both measurable and available to finance expenditures of the current period. Accordingly, revenues are recorded when received in cash, except that revenues subject to accrual (generally 60 days after year-end) are recognized when due. Expenditures are recorded in the accounting period in which the related fund liability is incurred.

The Reconciliations of the Fund Financial Statements to the Government-Wide Financial Statements are provided to explain the differences created by the integrated approach of GASB Statement No. 34. Charges for services, intergovernmental revenues, and interest associated with the current fiscal period are all considered to be susceptible to accrual, and therefore have been recognized as revenues within the current fiscal period. All other revenue items are considered to be measurable and available only when cash is received. The Foundation reports a single governmental fund – the General Fund.

C. Cash

The Foundation's cash consists of deposits with financial institutions.

D. Capital Assets

Capital assets consist of machinery and equipment which is stated at historical cost, net of accumulated depreciation, except for the portions acquired by contribution, which are recorded at fair value at the time received. The Foundation utilizes a capitalization threshold of \$5,000. Depreciation is recorded using the straight-line method. Estimated useful life of 15 years is used in computing depreciation of machinery and equipment. However, as of June 30, 2019, the Foundation does not report any capital assets.

APPLE VALLEY COMMUNITY RESOURCE FOUNDATION
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2019

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONT'D

E. Long-Term Obligations

In the Government-wide Financial Statements, long-term debt and other long-term obligations are reported as liabilities in the governmental activities. The fund financial statements do not present long-term debt. However, as of June 30, 2018, the Foundation does not report any long-term obligations.

F. Net Position

In the Government-Wide Financial Statements, net position is classified in the following categories, as applicable:

Net Investment in Capital Assets - This amount consists of capital assets net of accumulated depreciation.

Restricted Net Position - This amount is restricted by external creditors, grantors, contributors, laws or regulations of other governments.

Unrestricted Net Position - This amount represents net position that does not meet the definition of "Invested in Capital Assets" or "Restricted Net Position."

G. Fund Balance

In the Fund Financial Statements, the General Fund reports unassigned fund balance, a category that is used for balances that have no restrictions placed on them.

H. Deferred Outflows/Inflows of Resources

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents consumption of net position that applies to future period(s) and so will not be recognized as an outflow of resources (expense) until then. The Foundation currently has no items that qualify for reporting in this category.

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The Foundation currently has no items that qualify for reporting in this category.

I. Net Position Flow Assumption

Sometimes the Foundation will fund outlays for a particular purpose from both restricted (e.g. restricted grant proceeds) and unrestricted resources. In order to calculate the amounts to report as restricted net position and unrestricted net position in the statement of net position, a flow assumption must be made about the order in which the resources are considered to be applied. It is the Foundation's policy to consider restricted net position to have been depleted before unrestricted net position.

APPLE VALLEY COMMUNITY RESOURCE FOUNDATION
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2019

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONT'D

J. Fund Balance Assumption

Sometimes the Foundation will fund outlays for a particular purpose from both restricted and unrestricted resources (total fund balance). In order to calculate the amounts to report as restricted, committed, assigned, and unassigned fund balance in the governmental fund financial statements a flow assumption must be made about the order in which the resources are considered to be applied. It is the Foundation's policy to consider restricted fund balance to have been depleted before using any of the components of unrestricted fund balance. Further, when the components of unrestricted fund balance can be used for the same purpose, committed fund balance is depleted first, followed by assigned fund balance. Unassigned fund balance is applied last.

K. Use of Estimates

The preparation of basic financial statements in conformity with generally accepted accounting principles requires Foundation management to make estimates and assumptions that affect certain amounts and disclosures. Accordingly, actual results could differ from those estimates.

NOTE 2 - CASH AND INVESTMENTS

The Foundation's cash represents deposits with financial institutions (checking account), which is insured by the FDIC. The Foundation does not have a deposit policy for custodial credit risk.

The Foundation currently does not maintain any other deposits or investments.

NOTE 3 - RISK MANAGEMENT

The Foundation is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; and natural disasters. The Foundation participates in the Town's risk management program, which includes membership in the California Joint Powers Insurance Authority (JPA). Disclosures relating to the Town's participation in the JPA can be found in the Town's Comprehensive Annual Financial Report.

NOTE 4 - COMMITMENTS AND CONTINGENCIES

The Foundation is subject to litigation arising in the normal course of business. In the opinion of the Foundation's management, there is no pending litigation that is likely to have a material adverse effect on the financial position of the Foundation.

As of June 30, 2019, in the opinion of Foundation management, there were no other outstanding matters that would have a significant effect on the financial position of the Foundation.
