

## Building and Safety – Permit Center *Inspection Request*

### Process for Scheduling an Inspection

The Permit Center is where all inspections requests can be scheduled for a construction project.

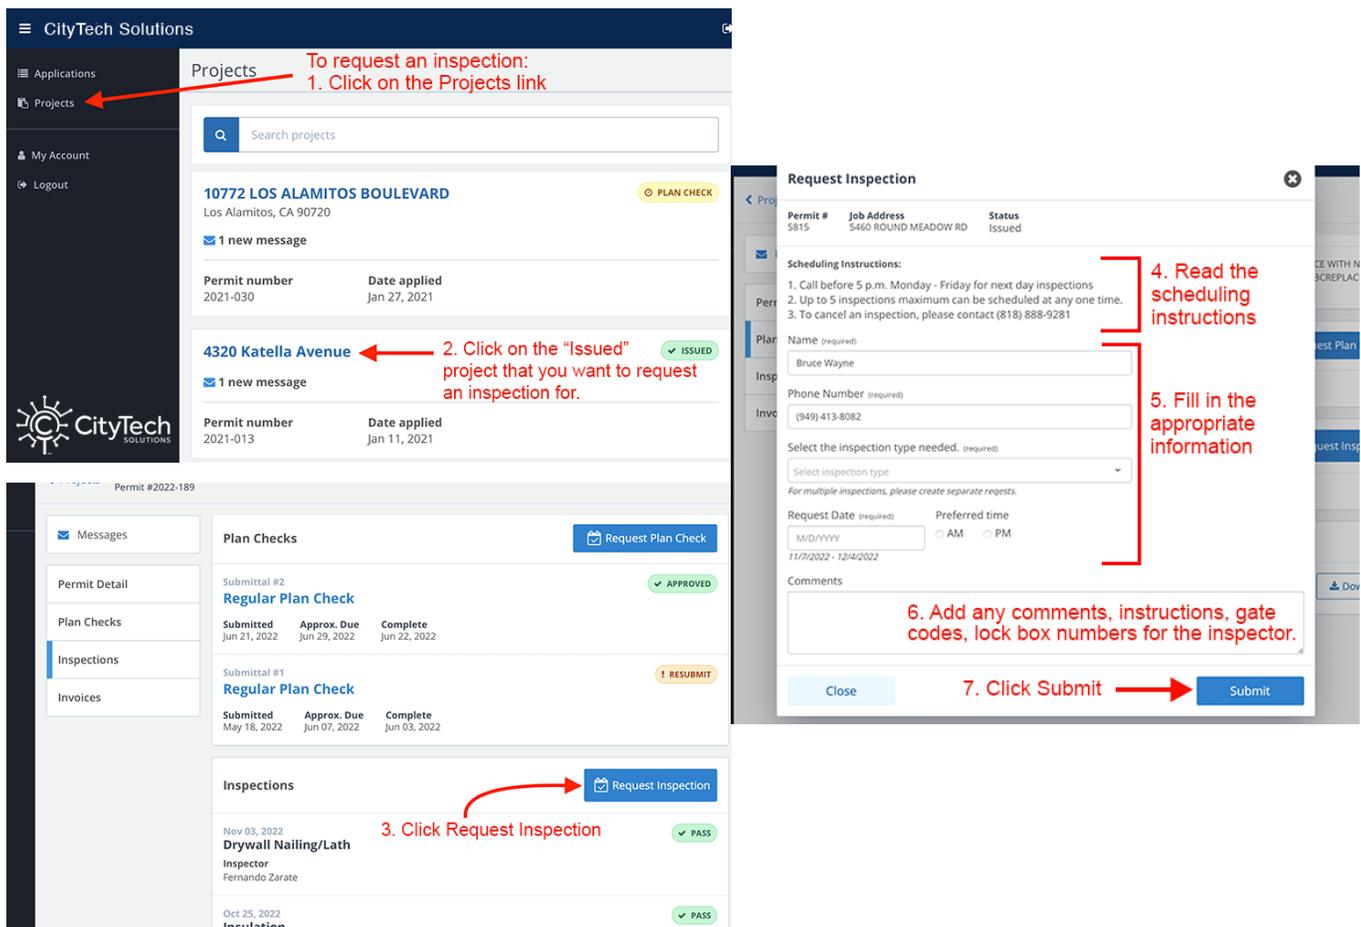

Please Note:

1. Only Projects that are in an Issued status ✓ ISSUED can request inspections. If your permit is displaying any other status, you will not see the Request Inspection button.
2. Only people associated with a permit, whose name and email address have been approved and entered into our Permit System for that project, can request an inspection.
