

**TOWN OF
APPLE VALLEY, CALIFORNIA**

AGENDA MATTER

Subject Item:

REVIEW AND APPROVE CONSTRUCTION SPECIFICATIONS FOR THE SLURRY SEAL 2009 PROJECT, AND AUTHORIZE STAFF TO PROCEED WITH ADVERTISEMENT FOR THIS PROJECT.

Summary Statement:

The Slurry Seal 2009 Project will include the placement of oil-based slurry on various Town roads. Oils from the slurry seal replenish the binders in the asphalt that wear away due to everyday traffic, or evaporate due to the desert's extreme temperatures. Each Town slurry seal project is designed to help preserve and lengthen the life span of Town roads, so as not to allow Town roads to reach a state of disrepair. The majority of this fiscal year's slurry seal project will take place on roads located in the central and west areas of Town.

Staff has reviewed the plans for this project and is satisfied that the specifications meet the intent of the Town Council for this project. The specifications, with bid packet, are being brought to the Town Council for review, approval and authorization to proceed prior to the bid opening. Staff recommends that the Town Council review the specifications and bid packet that are available in the Town Council office; approve the specifications and direct staff to proceed with the project.

Recommended Action:

Review and approve specifications for the Slurry Seal 2009 Project and direct staff to proceed with the project.
