

Making Home Affordable

The Obama Administration recently announced the Making Home Affordable Program, designed to assist up to nine million American families refinance or modify their loans to a monthly mortgage payment that is more affordable. Due to the overwhelming interest in the plan, homeowners are increasingly becoming the target of scammers trying to take advantage of families with false promises and steep fees to provide foreclosure assistance. With President Obama's plan, a homeowner **NEVER** has to pay to participate in the program. If you wish to obtain counseling assistance, HUD urges you to contact a local HUD-approved housing counseling agency to ensure they are receiving legitimate information.

HUD Counseling Agencies
