

**TOWN OF
APPLE VALLEY, CALIFORNIA**

AGENDA MATTER

Subject Item:

UPDATE ON THE BMX BIKE PARK PROJECT

SUMMARY STATEMENT

At the September 22, 2009 Town Council Meeting, a PowerPoint presentation was given to Council updating them on the progress of the BMX Bike Park project. After the presentation and discussion, it was the consensus of the Council that staff put out an RFP to get a project design and cost estimate on the project.

Staff put out an RFQ/RFP requesting interested firms to submit a proposal on construction design, a cost estimate for the project as presented and some comparison costs for a concrete option. The submittal deadline for these proposals was January 21, 2010. After reviewing the submittals, staff was to set up the next meeting of the Ad-hoc committee to discuss the proposals. From that meeting, an update will be brought to Council.

Concurrent to staff putting out the requested RFP for services, staff has been preparing an application for a possible grant that if awarded could potentially fund the entire project with no matching requirement. The submittal deadline for the grant is March 1, 2010. To comply with requirements for the grant, staff is organizing at least three additional public meetings that will be held at the James Woody Community Center regarding the project. If selected for award, the notice will arrive in September 2010.
