APPLE VALLEY, CALIFORNIA**

AGENDA MATTER

Subject Item:

Discussion on Horsemen's Center Improvements

SUMMARY STATEMENT

As has been discussed on numerous occasions over the last four or five meetings, the footing in both the Rodeo and Show Arena have had numerous problems including hard and unworkable conditions and corrupted materials.

Park's staff has purchased a tiller and installed automatic irrigation to both arenas. These improvements will allow the staff to perform an acceptable level of maintenance on both arenas.

Additionally, staff will be changing the maintenance regime for the arenas from an as needed or per event maintenance program to a minimum of bi-weekly maintenance. This will be accomplished with little or no additional staff time due to the improvements.

Recommended Action:

Receive and File.
